

Summary of Work Done by 1928 Legislature

Greater Part of Governor's Program As Outlined in His Annual Message Went Down to Defeat—Prohibition Failed to Come Up Even for a Record Vote.

Albany, March 22 (AP).—Governor Smith's legislative program was given little favorable consideration by the Republicans in control of the 1928 legislature.

In session slightly less than three months, the legislature before its adjournment today had shelved the major part of proposed legislation of a controversial nature and had enacted only the most necessary measures. Prohibition failed to come up even for a record vote.

The greater part of the Governor's legislative program, as outlined in his annual message, went down to defeat as the result of unified Republican opposition. Included in the proposals which failed of enactment were his plan for a four year term for elective state officials, with elections in non-presidential years as against the Republican plan of having elections in presidential years; the proposal for creation of a state waterpower authority, charged with development of the state's hydroelectric resources; a suggestion that county government be thoroughly studied and then reorganized; and numerous recommendations dealing with labor.

National significance was written into virtually every move made by the Governor, although he himself strictly adhered to the declaration made at the beginning of the year that while he remained in the executive chamber he would refuse to consider any affairs outside of those having a direct bearing on state business.

The Governor's name—linked with the presidential nomination—continually recurred in debates in both houses of the legislature. The last such reference came in the Senate yesterday during a debate on his four year term proposal, which met defeat by a strict party vote.

"This session will go down in history as the session when the Assembly and the Senate refused to do anything which by the wildest stretch of the imagination would reflect any glory on Governor Smith," asserted Senator Thomas I. Sheridan, a New York city Democrat. In reply, Senator John Knight, Republican floor leader, asserted that a recent radio appeal made by the Governor in favor of the four year term, "doubtless was made with the view to arousing attention to the individual as a candidate for the presidential nomination and done at a time when there seemed to be a dearth of news from the executive chamber."

Tax Reduction.

Tax reduction effected at the session took the form of a fifty per cent cut in the direct state levy on real property, by which the payers of the tax will be saved \$12,500,000 during the coming year. Credit for the original proposal to cut the tax was claimed by both the Governor and his Republican opponents. The tax of one-half mill to be levied this year, as against the one mill imposed last year, marks the lowest point to which the direct state levy has fallen since 1916, when no real property tax was imposed.

New Record For Appropriations.

Appropriations voted by the Legislature reached a new maximum record, with annual appropriation bill, carrying a total of approximately \$233,000,000, or \$16,000,000 more than last year, topping the list. The supplemental appropriation bill, carrying approximately \$1,435,000 this week, while numerous appropriations were made for state public works improvements, aside from those taken care of in the \$10,000,000 bond issue allocation for this year. The appropriations included \$31,000,000 for highway construction and maintenance, a portion of which, however—covering the federal government's share—will be refunded.

Crime Legislation.

Indirectly connected with the crime legislation were several bills aimed at tightening restrictions on the possible election law frauds and also measures introduced in connection with the campaign, inaugurated by Attorney-General Albert Ottinger against "loan sharks," after it had been disclosed that workers were being lured out of millions of dollars every year through exaction of alleged extortionate rates of interest. The first of the "loan shark" measures enacted into law was that aimed at "salary buyers," while a second bill provided for creation of corporations to loan money on wages without interest.

Defeat was meted out to all of the more important labor proposals in Governor Smith's message, including creation of a minimum wage board; liberalization of the 48 hour law for women and minors in industry; declaration that the labor of a human being shall not be treated as a commodity or article of commerce; prohibiting the granting of temporary injunctions in labor disputes without a preliminary hearing; and increased facilities for the division of after care service in the labor department.

Several measures introduced by the industrial survey commission as a result of its study of the operation of the workmen's compensation laws were enacted.

In connection with the Governor's

Seeks to Recover For Damaged Car

Morris Samter Brings Action in Supreme Court Against Merrick H. and Smith Bellows—Schiller Discharged as Defendant.

Wednesday afternoon another automobile negligence case was taken up for trial in supreme court before Judge Staley and a jury. It is an action brought by Morris Samter of this city against Merrick H. and Smith Bellows. The action was originally brought against Frank J. Schiller of Poughkeepsie but Mr. Schiller was discharged as a defendant from the case at the opening.

Plaintiff alleges that on May 15, 1927, he was the owner of a Studebaker car which he had parked in front of his premises on Broadway near Delaware avenue. The car of Schiller was also parked at the curb near the corner. Schiller started to pull out from the curb and the car occupied by the two Bellows came along and struck the Schiller car and in turn struck Samter's car damaging it. Schiller claims that it was not his fault, he blames the Bellows. Bellows claims it was the fault of Schiller in starting out from the curb when their car was too close to be brought to a stop or to avoid an accident.

John W. Eckert appears for the plaintiff and A. J. Cook represents the defendants.

Verdict of \$700 For Charles Thiel

Charles F. Thiel was awarded a verdict in the sum of \$700 by the jury which heard the evidence in the action brought in Supreme court against Leroy Jacobs of this city. The suit was brought by Thiel to recover damages to his automobile, sustained in a collision with the Jacobs delivery truck at Grand street and Smith avenue on April 2, 1926. The evidence was sent to the jury shortly after 3 o'clock Wednesday afternoon and a verdict agreed upon early in the evening. Cleon B. Murray and Frank T. Murray appeared for defendant, Thiel was represented by Brianter, Canfield and Elsworth.

This morning the taking of testimony was resumed in the action brought by Morris Samter against Merrick H. and Smith Bellows. Samter's Studebaker car was damaged while parked at the curb in front of his home on Broadway when a Nash car driven by defendants collided with a Dodge car of Frank J. Schiller which was pulling out from the curb after discharging two young women who had been riding with Schiller and a friend. John W. Eckert appears for plaintiff and A. J. Cook for the defendants. Schiller who was named as a defendant was relieved of responsibility early in the case.

Fall Not to Be Examined

Washington, March 22 (AP).—Notwithstanding his expressed anxiety to tell his story in court, Albert B. Fall has apparently escaped the necessity of taking the stand in the immediate future to record his own defense of the leasing of Teapot Dome.

Government physicians have reported that the rapidly falling man is in no condition, physically or mentally, to stand the strain of a trip to the east. Likewise, the Teapot Dome committee of the Senate has virtually decided that he is not to be examined, at least for the present, in the oil investigation.

Meanwhile the question of a severance of the Fall-Sinclair conspiracy case, so that Harry F. Sinclair may go on trial April 2 must be decided, and the Sinclair forces are resisting such a move on the ground that Fall is a material defense witness.

Although a deposition might be taken from Fall by the defense, the government has no such privilege in a criminal case. George P. Hoover, counsel for Sinclair, has said that even should a deposition be desired, there is not sufficient time between now and April 2 to obtain it. On the other hand government attorneys say the defense has known all along that Fall was too sick to travel and that they should have guarded against such a contingency.

Fall-Sinclair Trial Postponed

Washington, March 22 (AP).—The Fall-Sinclair conspiracy trial, set for April 2, was postponed indefinitely today. Government counsel immediately moved to fever the case to try Harry F. Sinclair separately.

Assembly Kills Four Years Term

Albany, N. Y., March 22 (AP).—The Assembly today followed the lead of the Senate in its action yesterday and turned down the Democratic proposal for a four year term for governor and other elected state officials. A motion to discharge the committee on the question failed of adoption by a vote of 62 to 85, after a debate lasting more than two hours.

More Workers for Fall Will Tell Benedictine Ball The 'Whole Truth'

The various committees planning the Benedictine Ball to be held in the armory Easter Monday night, April 9, for the benefit of the Benedictine Hospital, are rapidly completing arrangements for the event. The Benedictine Ball of this year is expected to eclipse all past benefit performances and crown all social functions of the kind for 1928.

Mrs. Edward J. Kelley, chairman of the cigarette and flower booth will be assisted by the following workers at the Easter Monday ball:

Cigarette Booth
Mrs. Samuel Gregg, Mrs. Vincent Gorman, Mrs. Robert Moore, Miss Marie Murphy, Mrs. Frank Disch, Mrs. James Simpson, Mrs. Helen Nolan, Mrs. Florian P. Wingert, Miss Gertrude Disch.

Flower Girls
Betty Entrott, Nan Goldrick, Frances Finn, Katherine Liscom, Florence Learcraft, Anna Helen Brogan, Helen Hinds, Deiores Wingert, Elizabeth Wingert, Olive Brophy, Mary Brill, Louise Steuding, Isabelle Dixon, Ruth Dixon, Margaret Grogan, Gertrude Melchior, Isabel Murphy, Teresa Lloyd, Elizabeth Brennan, Mary Schenck, Ruth Lynch, Kathleen Murphy, Eleanor Murphy, Christobel Murphy, Jane Ward, Mary Turner, Anna O'Meara, Mary Connelly and Margaret Vansteenberg.

Mrs. F. Rist, chairman of the lemonade booth, will be assisted by the following workers: Mrs. A. Bott, Mrs. C. Laicher, Mrs. F. Schatzel, Mrs. J. A. Schatzel, Mrs. C. Schuler, Mrs. E. Gregory, and Mrs. J. Murray.

EX-CONVICT WANTED IN GEORGE MURDER

Buffalo, N. Y., March 22 (AP).—Police today announced they were seeking Alexander Bogdonoff, of Niagara falls, as one of three gunmen who on New Year's Eve shot and killed a night club proprietor, Michael George, and seriously wounded a girl patron, Charlotte Gaiser of Elmira.

While no warrant has been issued for his arrest, police said they were sure Bogdonoff was implicated in the shooting. They added that his picture had been identified.

According to the police Bogdonoff is an ex-convict, having been convicted of robbery in 1920. They said he was paroled from Auburn prison on February 16, 1924.

CUVILLIER WOULD CHANGE THE CALENDAR

Albany, N. Y., March 22 (AP).—As the 1928 legislative session swung into its final business, Louis A. Cuvillier, Tammany assemblyman and champion of the vets in the Legislature decided there is one day too many in the present calendar year and introduced a bill to correct the situation.

Mr. Cuvillier's measure would amend the general construction law which prescribes that the Gregorian calendar shall prevail for all purposes in New York state. He would substitute a 364 day year with 13 months of 28 days each. The bill does not specify what the thirteenth month shall be called.

MARY PICKFORD'S MOTHER DIES AFTER LONG ILLNESS

Los Angeles, March 22 (AP).—Mrs. Charlotte Pickford, mother of Mary Pickford, screen star, died today after a lingering illness.

Miss Pickford was at the bedside at her mother's Beverly Hills home when she died. A cancerous growth was reported to have been the cause of her death. She was 55 years old.

Mrs. Pickford, whose name formerly was Charlotte Smith, was the mother of three motion picture stars, Mary, Lottie and Jack Pickford.

Mrs. Pickford was born in Toronto, Canada, September 3, 1872, and was married to John Smith when she was 19 years old. Her three children were born in Toronto.

HEARINGS IN CASE OF JOHN ZOCH OF CHATHAM DEFERRED

Owing to the Federal enforcement officer being engaged in court in New York, the hearings in the cases against John Zoch of Chatham, Columbia county, one for possession and one for selling alcoholic beverages in violation of the Volstead act, were postponed today by U. S. Commissioner Arthur C. Connolly until about the middle of April, exact date to be fixed later. Zoch is charged with violating the law in two places, one at a hotel and the other at an oil station he owns.

COOLIDGE WILL VISIT VERMONT THIS SUMMER

Washington, March 22 (AP).—A delegation of Vermont citizens which called at the White House today was told by President Coolidge that he would visit Vermont this summer.

He gave the delegation the distinct impression, said its spokesman, Harry Whitehill, of St. Albans, that he would spend a large part if not all of the summer there.

Will Answer Questionnaire

Washington, March 22 (AP).—The questionnaire submitted by Governor Fisher to the Senate coal investigation committee in reply to its invitation for him to appear as a witness, will be answered in "substance," that committee decided today.

Diamond Joe Esposito Slain

Chicago, March 22 (AP).—Ganzland's three way combination of death—guns, gunmen and a motor car—has ended the crowded life of Diamond Joe Esposito, 55, whose meteoric career began as a day laborer in Brooklyn and ended as a Chicago political boss.

Fifty shot gun slugs were fired in to Diamond Joe's body last night as he was returning from a meeting of the political group with which he was affiliated—the United States Senator Deneen, or anti-Thompson faction.

Three men shot him from behind. As he lay dying one pumped an extra charge from a double barreled gun into his back. Then they fled in an automobile.

Yesterday Joe had been warned over the telephone to "get out of town or get killed." Less than a month ago, Philip Leonetti, who married Mrs. Esposito's sister, was slain in the same neighborhood, known as the old "Bloody Nineteenth," but now a part of the 25th ward.

Esposito first came into prominence as a political leader in 1914. Gradually his power extended until 1920, when he became a candidate for ward committeeman on Senator Deneen's slate and after a bitter fight won the election. He was the only Deneen candidate in the city to win against the Thompson-Lundin faction.

Soon after began the trail of bloodshed that reached to his own doorstep last night, and which gave to his ward the sobriquet "The Bloody Nineteenth."

PUBLIC SHOOT WILL BE HELD SATURDAY

The Ulster County Gun Club will hold its first public shoot on the Kiersted farm, near the Pan-Am gas station on the Saugerties road, Saturday, March 24. Should rain interfere, the shoot will be held the Saturday following. Cars may be parked at the gas station where directions will be given concerning the way to get to the Kiersted farm. There will be prizes for the winners, donated by Kingston merchants.

The Saturday shoot, in which the public is cordially invited to participate, will be followed by several more this season. Much interest has been shown in the Gun Club, the offspring of the Ulster County Fish and Game Association. A large attendance is looked forward to owing to the interest shown in the club. Those who expect to participate are asked to bring their own guns. Shells will be furnished.

Owing to the condition of Esposito avenue, the directors of the shoot advise car owners to park them at the Pan-Am grounds. There will be plenty of room there from where the shoot can be reached more conveniently.

The following merchants have donated prizes for the shoot winners: L. S. Winne, hardware and sporting goods; M. H. Herzog, auto supplies, paints and radios; M. Hymes & Son, sporting clothes and shoes; Dave Kantowitz, sporting clothes; F. W. Lyons, sporting goods; Chester A. Casaro, sporting goods; and Charles Warren, sporting goods.

RESOLUTION FOR THE ARREST OF CUNNINGHAM

Washington, March 22 (AP).—A resolution directing the immediate arrest of Thomas W. Cunningham, a prominent Republican of Philadelphia, will be presented to the Senate tomorrow, Senator King Democrat of Utah, today informed the Senate.

Sinclair's contributions to any campaign fund except as hearsay.

He said he did not know, however, of the matters concerning three naval oil reserve leases and about the financial transactions testified to by M. T. Everhardt, his son-in-law, regarding his Three Rivers, New Mexico, ranch holdings.

"What I meant to say and I mean now to say," his reply read, "is that I am perfectly willing to testify to all matters within my knowledge upon the subjects indicated."

Fall Not Able To Stand Trial

Government Physicians Report Him In An Extremely Feeble Condition—Will Insist That Sinclair Be Placed on Trial April 2.

Washington, March 22 (AP).—Reports from government physicians who examined Albert B. Fall agree with reports made by his personal physician that the former secretary is unable to come to Washington for his trial on April 2.

The report of two physicians who made the examination at the request of Owen J. Roberts and Alcee Pomerehne, special government prosecutors, said that Fall was in an extremely feeble condition.

The government prosecutors indicated that the affidavits which will be presented in support of Fall's motion to continue his trial to a later date, were to the effect that the former secretary's heart and lungs are in very weakened condition and say that neither his physical nor mental condition would permit of his being placed on trial at this time.

The prosecutors accepted the reports of their medical representatives as indicating that the court would grant continuance of the case insofar as it affected the former interior secretary. They will insist, however, they said, that Sinclair be placed on trial April 2.

Our Growing Population.
The following births have been reported to the board of health: Mr. and Mrs. William H. Mohr, 114 Spring street, a son, Chester David.

Mr. and Mrs. Richard Whalen, 26 Bonlevard, a son, Joseph Thomas. Mr. and Mrs. Fred Haines, 582 Abuel street, a son, William Fredrick.

Mr. and Mrs. Ray Miesge, 105 Cedar street, a daughter, Pauline Hilda.

Mellon Will Not Resign

Regardless of the Result of the Vote in the Senate—Senator Couzens Declares Treasury Head Totally Unfit to Hold Office.

Washington, March 22 (AP).—It was made clear today at the treasury that regardless of the result of the vote in the Senate on the resolution aimed to obtain his retirement from the cabinet, Secretary Mellon would not resign.

It was evident in treasury circles that Mellon would ignore the attack upon him in Congress unless President Coolidge should demand his withdrawal from office and no such action was considered possible. The resolution for the secretary's retirement, offered by Senator Couzens, Republican, Michigan, arose partly from the Teapot Dome inquiry, and Mellon's failure to disclose that Will H. Hays, former Republican national chairman, had offered him Sinclair Liberty bonds in exchange for a campaign contribution.

Until, Says Couzens.

Urging adoption of his resolution declaring the Senate in favor of the resignation of Secretary Mellon, Senator Couzens, Republican, Michigan, today declared in the Senate that the treasury head had proven himself "totally unfit" to hold office.

Plane Crashes, Pilot Uninjured

Poughkeepsie, N. Y., March 22 (AP).—Edward Seabury, Schenectady aviator and parachute jumper who made a forced landing in a field at McKee's Corners on the Albany Post Road three miles east of Cold Spring, Tuesday, crashed this morning when he attempted to take the plane out of a small hillside field. The plane struck a stone wall first, then cut off a telephone pole and piled up in a heap of wreckage but Seabury was uninjured except for minor bruises.

Seabury purchased the plane Tuesday at Curtiss Field and was forced to make landing on the Helen Fahnestock estate at McKee's Corners enroute to Schenectady. Today he returned to take the plane out and despite the advice of experienced aviators present he attempted to clear a stone wall less than 300 feet distant. The wall ripped off his landing gear and as Seabury sought to get altitude to jump to safety, the plane veered into a telephone pole 14 inches in diameter and cut it off cleanly. The wings were cut clean of the plane, the propeller smashed and the fuselage wrecked, leaving only the engine and a few instruments undamaged. Seabury left soon after to arrange for parachute jumping exhibitions at Staatsburg.

Burglars Enter Public School

They Scoured Coppers But Took Silver From Principal's Office—Total Loot Not More Than \$10.

This morning when the janitor of School No. 4 in Poughkeepsie entered the building it was to find that intruders had entered during the night and broken in a panel in the door leading to the office of Principal R. H. Van Valkenburgh, where they had taken some milk money that was kept in the office. They had emptied on a table the box in which the money was kept, and taken the silver, leaving about \$2 in pennies lying on the table. The thieves had also broken into the library across the hall from the principal's office, evidently seeking money. It is estimated that they had obtained altogether between \$8 and \$10. The janitor, when he discovered the burglary immediately got in touch with police headquarters and Sergeant James V. Simpson made an investigation.

W. W. Van Keuren House Destroyed

Fire, of unknown origin, destroyed the two story frame residence of W. W. VanKeuren on the Saugerties road, just outside the city, shortly after 6 o'clock this morning. The fire broke out shortly after 5 o'clock and the Kingston fire department was called. Owing to the fact that there was no water or other facilities to fight the fire nothing could be done to save the structure which was burned to the ground with its contents.

2 Enlisted Men Killed by Blast

Washington, March 22 (AP).—Two enlisted men are dead, five suffered serious burns and four enlisted men and one chief warrant officer suffered minor burns in a gasoline explosion yesterday aboard the destroyer tender Whitney at Guantanamo Bay, Cuba.

Sir Mortimer Davis Dies

Cannes, France, March 22 (AP).—Sir Mortimer Davis, Canadian banker and sportsman, died today.

Burglar Electric Sign

An illuminated electric sign with the slogan "Say It With Flowers," has been placed at the corner of Main and Fair streets, on the building of the Valentine Burglar, Inc., members of the National Florists Association.

Spring Display Week Will Open Uptown Tonight

Latest and Finest Merchandise Will Be Shown in Store Windows and Newest and Best in the Automotive Industry on the Streets.

When the fire alarm sounds three taps at 7:30 o'clock this evening there will be revealed to the public one of the most magnificent displays of spring merchandise ever presented to the public. Windows which have been closed to the public eye during the day will be unveiled and Kingston's Uptown Merchants Annual Spring Display Week will be under way.

In all of the stores participating in the event will be shown all that is latest and finest in spring merchandise while on the streets will be shown all that is newest and best in the automotive industry, for the Kingston Automotive Dealers' Association is participating in the Uptown Business Men's Association Annual Spring Display Week by holding an open air automobile show on Wall and North Front streets.

This combination of spring merchandise of all kinds and bright new shiny automobiles is expected to bring out a record crowd of people from the city and Ulster county.

Promptly at 7:30 o'clock Chief Murphy will cause the signal to be sounded on the city fire alarm system and at that time the curtains which have hidden the windows all day will be drawn, revealing the splendors of the window dressers' art.

From 7:30 until 10 o'clock the stores will be lighted and the public will be given an opportunity to examine the window displays.

Traffic on Wall street has been so arranged as to give every opportunity to view the cars on the street, and the public will find that there will be plenty of time to inspect the newly displayed automobiles as well as look over the spring merchandise of the merchants.

At 5 o'clock Wall street and North Front street, from Crown to Fair street, will be closed to all parking of vehicles and between the hours of 5 and 7:30 the automobiles of the dealers will be positioned on the street. One way traffic only will be allowed over that section of the street and that traffic will be north and west bound only.

When the windows are revealed to the public at 7:30 o'clock the fire judges, appointed by the committee in charge of the Spring Display Week, will begin their rounds to judge the various window displays. To the best dressed window will be awarded the silver cup.

FORMER GOVERNOR OF PENNSYLVANIA DIES

Chester, Pa., March 22 (AP).—William C. Sproul, former governor of Pennsylvania, financier and business man, is dead at his home near here.

The end came peacefully last night after an illness of more than a year from a complication of diseases. He was 57. His widow and two children, Captain John R. Sproul and Mrs. Lawrence Sharples, survive. Arrangements for the funeral had not been announced.

The apex of his political career came in 1920 when his name was placed before the Republican national convention in Chicago for the nomination to the presidency. After receiving 85 votes through seven ballots, he withdrew to permit the nomination of Warren G. Harding, and refused to consider the proffer of any other office.

Mr. Hampton Moore, former mayor of Philadelphia, who placed Mr. Sproul's name in nomination, said the former governor might have been president of the United States if he had heeded the advice of his friends and agreed to stand for vice president.

MICHAEL MAYONE WAS ARRESTED BY WIFE

This morning police headquarters received a telephone call from 22 Wilbur avenue asking assistance and stating that there was a man running about with a knife in his hand. Sergeant Simpson responded to the call and when he reached the scene Mrs. Michael Mayone placed her husband under arrest and turned him over to the sergeant. The charge was assault in the third degree. Michael when brought to police headquarters was badly battered about the face with a cut over one eye. Later in police court the hearing was adjourned to Saturday morning.

MRS. WARNER WILL WED RAY M. LONG

New York, March 22 (AP).—Mrs. G. S. Warner of Syracuse, and Ray M. Long of Oswego, announced they would be married today in the Church of the Transfiguration, the "Little Church Around the Corner."

Mrs. Warner is a niece of Thaddeus C. Sweet, former speaker of the New York Assembly. Mr. Long is a son of D. D. Long, wealthy candy manufacturer.

Burglar Electric Sign

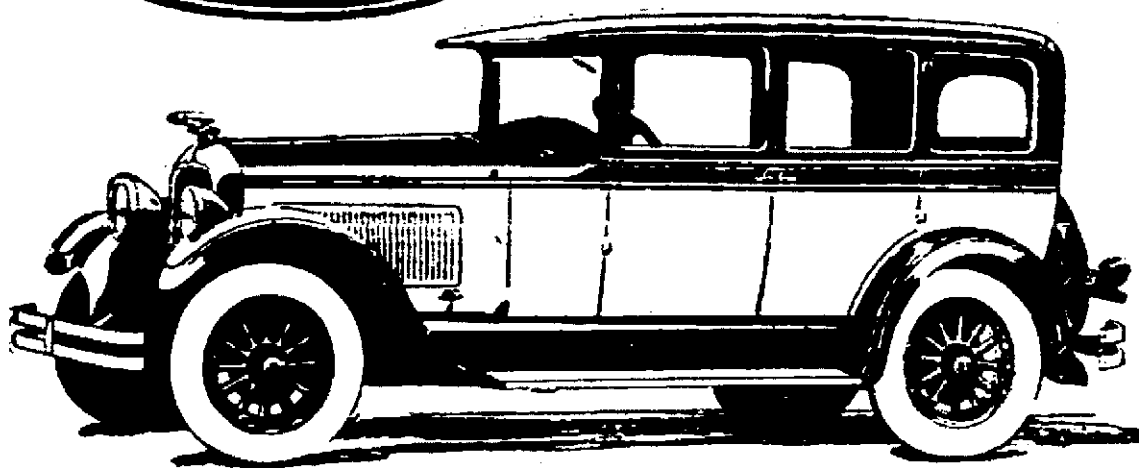

An illuminated electric sign with the slogan "Say It With Flowers," has been placed at the corner of Main and Fair streets, on the building of the Valentine Burglar, Inc., members of the National Florists Association.

STUDEBAKER

The Great Independent

THE
Dictator
4 DOOR SEDAN
\$1195

55 more power
65 smooth miles
per hour

STUDEBAKER engineering genius has increased the new Dictator's horsepower from 45 to 70 and added to its speed. But its cost to you has not been increased. And the new Dictator engine is actually more economical of gasoline than ever before. It delivers a perfectly paced 65-miles-an-hour—accelerates like a rocket—possesses the flexibility of the finest 6-cylinder construction.

Holds record for cars under \$1400

Proof of the new Dictator's advanced performance was established when a stock Dictator sedan traveled 24 continuous hours at better than mile-a-minute speed. No stock car under \$1400 has ever equaled this record.

40-mile speed even when new

Due to advanced engineering practices, precision building, high quality materials and rigid inspections which this new Dictator receives, it can be driven 40-miles-per-hour the day it is delivered. No laborious 20-mile-an-hour breaking-in.

Lubricate only every 2500 miles

Studebaker engineers have also eliminated the necessity of oil change to but once every 2500 miles. Chassis greasing has been reduced to 2500-mile intervals through a unique system of magazine high-pressure lubrication.

Engineering genius and traditional quality

Throughout its design the new Dictator is the product of advanced engineering development—yet its One-Price price is still only \$1195, f. o. b. factory, and it bears a famous name—Studebaker—the highest guarantee of motor car excellence!

URGES NEW PURPOSE

IN GEOLOGIC WORK

Washington, March 22 (P).—With depletion of mineral resources going on at a rapid rate, "geologic research with a new purpose and perhaps with new methods" is demanded. Dr. George Otis Smith, director of the United States Geological Survey, believes.

Federal agencies, however, are unable at present, he feels, to provide an adequate national program of geologic work specifically planned to aid mining. Laying the situation before the mines and mining committee of the senate, he pointed out that while the volume of mineral output had increased 40 per cent since 1919, federal funds for geologic work had been reduced. The 1919 appropriation amounted to less than one one-hundredth of one per cent of the value of the year's production.

"It is the ever mounting curve of mineral consumption," said Dr. Smith, "that I interpret as peculiarly expressive of increments in civilization. The contrast between mining and agriculture is significant in two respects. In the first place, with reference to demand, one generation requires about as much food per capita as another, but its requirements in metals, fuels and building materials—change with every discovery and invention. In the second place, with reference to supply, mining is a process of depletion, whereas agriculture harvests annual crops.

There are two and only two ways of adding to the country's available mineral assets—by getting a larger recovery from known deposits and by finding new deposits. To keep up the pace already set by the demands of civilization today—not to mention the demands of tomorrow—we need to apply to our task more and better technology and more and better geology."

Come Far To College.

Berea, Ky., March 22 (P).—Distance from town or railroad and lack of funds do not deter Southern Appalachian youths from getting an education. Prof. W. J. Hutchins of Berea college says. The school's 2,500 students live an average of 8.49 miles from any village and only 20 have parents who pay more than \$100 a year in taxes.

Freaks of Tornadoes

Tornadoes play many freakish antics. According to the National Geographic society, the tremendous velocity of a tornado often drives quills and straw into boards and planks through the trunks of trees.

MEXICAN SALOON NAMES FANCFUL

Artistry Outlines That of Genius Who Provides Pullman Nomenclature.

Mexico City.—While the world is acclaiming Diego de Rivera, Sotomayor and other Mexican artists now in New York, Paris and other great cities, it has forgotten an entire tribe of artists who stay at home. It consists of the poets and word painters who are responsible for the names of the numerous Mexican saloons (cantinas), and pulque bars which dot a land where speakeasies are unknown and where a couple of swinging doors still mark the shortest line between the man in the street and the brass rail. Even the imagination and inventiveness of the geniuses who contrive the names of pullman cars fade into littleness beside the artistry of the unknowns who ply their art in the nomenclature of cantinas.

A More Sign.
What a facile brain it was, for instance, that had the inspiration to order painted above a cantina doorway: "The Library for the Man Who Cannot Read!" A mere sign, yet one might say that it contained the wisdom of ages.

A stroke almost as masterly was that which originated "The Gulf of Mexico." What a place to drown one's sorrows!

If one wants to get shot, or even only half shot, as they say in the United States, where better to go than to "The Machine Gun?" (La Ametralladora). It may have been that this title was stolen from some sister place in Chicago.

"La Noche Buena"—"The Good Night," offers possibilities too obvious for comment.

Sex, of course, cannot be kept out of anything these days—witness, "La Hermosa Hortensia"—"The Beautiful Hortense." Or, "The Daughter of the Jewess."

For historical associations one might go to "The Glory of Columbus." For flights of fancy when alone, or of words when there are listeners, how about "The Swallow?"

When you wish to combine pleasure with business, what is the matter with "The Mercantile Exchange?"

And when one feels, as they say, "low," surely "The Mountain" is the proper place to climb.

Where a young man's fancy has been turned the wrong way he can still, no matter what the season, find solace in "The Spring" (La Primavera).

And when the dark days are upon one, what more natural than to turn for light to "The Port of the Sun?" "The Surprise," one imagines can be all of that on occasion.

Pearls of Everywhere.

Should the patriotic mood seize you, try "The Glory of the Fifth of May." If you are homesick there is "The New York," and numerous Pearls and Ports of This and That. There is "Pearl of Spain," and a pearl or port of most everywhere excepting possibly only Indianapolis, Grand Rapids and a few others.

If you are one of those who is prone to lose his sense of direction after two or three, you will be safe, it is assumed, at "The Compass."

And what better warning could any one have, if he feared his transgressions might overcome all conscience, than to park cautiously at "The Railroad Crossing?"

As a sample of unexcelled frankness, combined also with a warning, one might cite "The Business Man's Trap." Sometimes it is plain rest and seclusion from a hard and cruel world that one desires. There is "El Retiro."

And for the successful ones, in love or business, "The Conqueror" (El Vencedor).

Tells by "Adam's Apple"

Whether Witnesses Lie

Westworth, N. C.—Watching the "Adam's apple" of a witness is a surer method of detecting lies than any new-fangled mechanical inventions of scientists. In the opinion of Judge Thomas J. Shaw, of the Superior court.

"If a witness swallows his 'Adam's apple' before answering a question, watch out for perjury," he told a grand jury. The next day, when a young man was on trial charged with stealing an automobile, the judge gave a demonstration.

He had been inclined to be lenient, but when he asked if the youth had ever been indicted before, the latter's Adam's apple executed a drop before the prisoner replied in the negative. Pressing his questions swiftly, Judge Shaw soon had a confession of several crimes, and sentenced the defendant to two years' imprisonment.

White Deer Joins Elks and Is Seized for Zoo

Stony Point, N. Y.—A white deer, the first ever seen among the 4,000 wild ones of the Palisades park system, wandered into an elk corral. Park patrolmen recovered from their astonishment quickly enough to snap down the gate and hold the deer.

The animal is a sturdy specimen, and Maj. W. A. Welch, chief engineer and general manager of the park, ordered it taken to the Bear Mountain park zoo, where thousands of visitors will be coming soon.

**"Luckies Are Preferred
On The Golf Course,"
Says Johnny Farrell, Golf Star**

"It seems to me that all my friends on the golf course and off prefer Luckies to all other cigarettes. It is easy to understand this from their wonderful flavor and aroma and besides they never irritate the throat."

"The Cream of the Tobacco Crop"
for Lucky Strike says
Leaf Tobacco Buyer

"The sale of LUCKY STRIKE Cigarettes has increased to a phenomenal degree. I am a leaf tobacco buyer and am instructed to buy the 'Cream of the Crop' for this Brand and I am following my instructions to the letter."

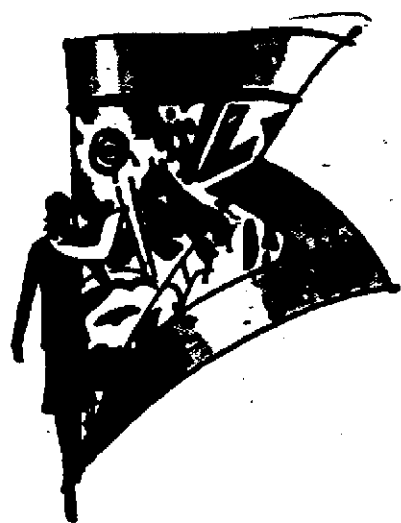

Gold Darius

"It's toasted"

No Throat Irritation - No Cough.

FORMAL SPRING OPENING!

The New Mode Takes to Scarfs

\$1.98 to \$5.25

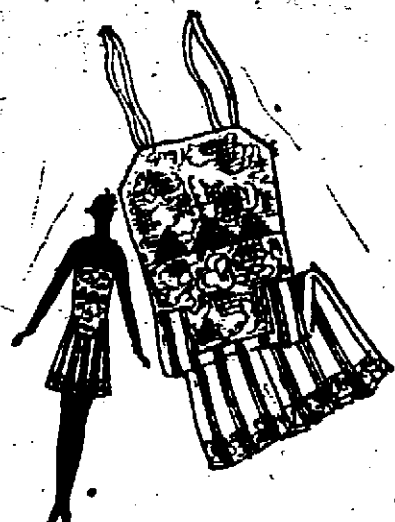

There is a swing and a sway to the scarf that emphasizes the new feminine mode—and the woman who would be decidedly chic will have one or more to wear with her new spring costume.

Smart Flowers Will Bloom Again

50c to \$1.75

The tailored suit especially will require the colorful shoulder flower to break the too-strictly-tailored effect, which no longer takes precedence in milady's wardrobe.

Lingerie, Too, is Always Dressy

\$1.97 to \$6.50

The foundation must be as feminine as its counterpart—the frock. And so in our new spring collection the models take to the French view of things and are elaborately lace trimmed and pleated.

The Smart Slipper

\$8.00

To follow the correct path of fashion, you can make no better choice than a slipper of patent kid with cut steel buckle which highlight suit or frock.

Spring Coats Divide Their Popularity Between Novelty Materials and Straightline Models

\$16.97 to \$65.00

Coats, whether novelty or straightline, are new in fabric, in line, in color and especially in deftly managed details—all of which define the season's change of mood.

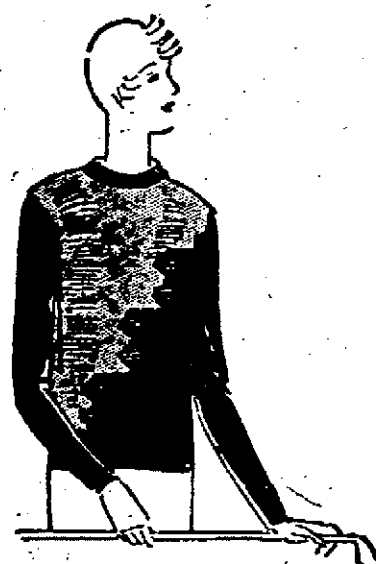

Spring Brings a Regal Simplicity.

—but it is the simplicity that brings the very essence of Parisian smartness, united with an entirely new and daring spirit—with more interesting originality in every line.

Spring Sweaters Are Important Addition

\$2.98 to \$12.50

We see sports frocks growing out of them for golfing days that are here—and so original in design are they that the less extravagant street frock will be composed of the sweater and pleated skirts. In all of spring's most lovely colors.

Children's Coats Smart Designs

For Spring Wear

TWO GROUPS

2 to 6 yrs.

Tweeds, mixtures, chevrons, tans, greens, navy.

\$6.97 to \$10.97

7 to 14 yrs.

Tweeds, mixtures, velours.
\$8.97 to \$19.97

Paris Assigns Importance to the New Feminine Trend in Spring Frocks

\$10.97 to \$39.00

All Paris agrees that the outstanding theme of the newer frocks is their graceful and feminine trend. Here you will find a crystallization of the new spring fashions.

Fashion Heralds the Formal Mode

With femininity the keynote, the mode naturally assumes a more formal tone. However, for those who prefer the ease of sportswear, there are many models of youthful sophistication.

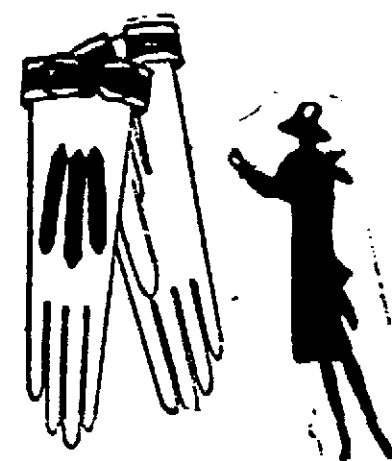

Hats, Too, Are Feminine Again

\$2.98 to \$12.50

Since it's smart again to be feminine, new hats are actually trimmed once more. The most engaging small models as well as the strictly feminine large brim affairs are delightfully festooned with flowers and fruit and much beribboned.

New Flares Are Seen in Felt

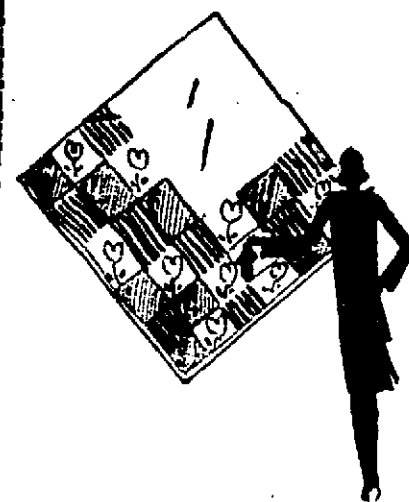

Even the felt hat has fallen captive to the new mode and many new versions are to be seen here, finished with flares and double flanges. You will find a variety of models for every occasion.

Gloves That Paris Has Chosen

\$2.95 to \$3.25

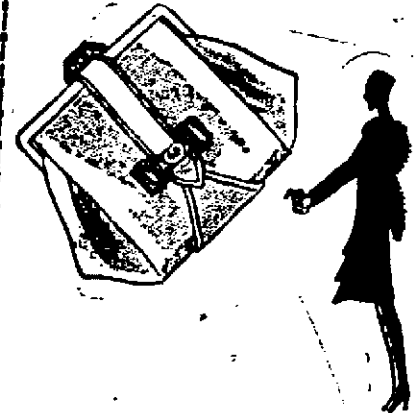

The whole world knows the supple charm of French kid and when Paris has also sent the styles—there is nothing more chic or desirable for the new spring costume.

Color in Handkerchiefs

25c to \$1.00

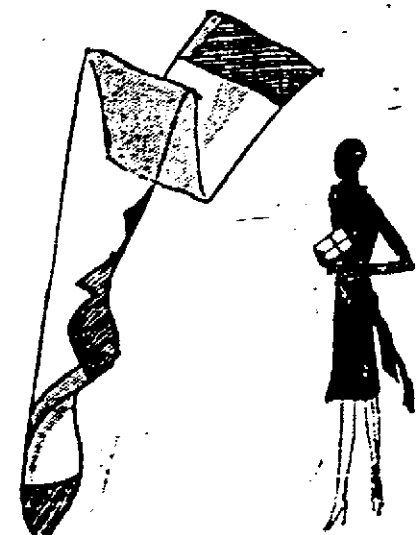

In keeping with the moods of spring for color in every article of apparel the handkerchief adds its little bit. Sheer linens with wide borders and solid color handkerchiefs, too.

Handbags are Startlingly New

\$2.95 to \$6.98

New leathers, new silks, new clasps and trimming—to say nothing of the many new colors. The inside double pocket is one particular feature all women will look for this spring.

Hosiery Takes To Its Heels

\$1.00 to \$2.97

In spite of the uneven hemline, hosiery will be as much in evidence as ever—and designers have concentrated on heels for spring. Sheerest silk all the way.

CAKE SALE HERE SATURDAY

AGRICULTURE

Nothing justifies feeding complex mineral mixtures to cattle all the time.

The outlook for 1928 for wool growers in New York state is said to be better than for some time in the past.

Uncle Ab says he knows an inventor who does things because he never learned enough engineering to find out why they couldn't be done.

It is better to feed silage to dairy cows once a day over a longer period than to feed it twice a day for a shorter time if no other succulent feed can be had.

Cod liver oil in mash or grain for young chicks prevents leg weakness and aids normal growth. Cornell recommends that it be fed at the rate of one pint of the oil to 160 pounds of feed.

Cornell has a new supply of its bulletin on poultry diseases. If you want a copy, a postcard asking for E 45, addressed to the state college of agriculture at Ithaca, New York, will bring it.

The Massachusetts agricultural college says, "The outlook for egg, broiler, and poultry prices is slightly better than for 1927. Feed costs on the other hand are expected to continue high, at least during the first half of the year."

Try steel wool to remove food which has "browned on" glass baking dishes.

The newest dresses this spring indicate that skirts are coming down and waist-lines up.

Bright, figured materials make attractive curtains for a room with plain floors and walls.

It pays to put the woollens away clean because the moths are always attracted first to the soiled spot in the garment.

Cornell has a leaflet giving suggestions for correct toys for little children. Write the New York state college at Ithaca for one.

When serving refreshments on a card table, use white blotting paper under the cloth. This absorbs any liquid which may be spilled and protects the cloth from being stained by the colored table top as well as the top itself.

Following is the program for the service at the Redeemer Lutheran Church this evening:

Prelude—"Meditation"—Bach-Gounod
Processional Hymn—"Come Let Us Join our Cheerful Songs"—St. Agnes
Contralto Solo—Miss Mildred Messinger
Sermon—"Simon Bearing His Cross"—being the fourth of the series on "Characters of the Passion"—Bach
Offertory—"Berceuse in D"—Lemare
Recessional Hymn—"Am I a Soldier of the Cross?"—Mancoske
Postlude—"Fugue in E Minor"—Bach

At the meeting of the Bible School Association, the following officers were elected: Superintendent, the pastor; assistant superintendent, Jacob Messinger; corresponding secretary, Miss Hilda Port; recording secretary, Miss Julia Roosa; treasurer, Henry Dittus; librarian, John Houghtaling. It is expected that the cross and crown pins for the first quarter will be distributed on April 1.

Needs Tropical Climate
The Litchi or Lichi grows successfully only in southern China, Cochinchina, and the Philippines. It has been grown experimentally in southern Florida, and southern California, but will not thrive except in a tropical climate.

It is not to be wondered at therefore, that when the discussion during a whole session of a medical convention was spent on the subject of asthma, that something definitely new as to cause and treatment was demonstrated.

THAT BODY OF YOURS

CURING AND PREVENTING ASTHMA.
It is refreshing to see the way the medical profession has tackled that miserable ailment asthma.

I was taught as a student that as few people, if any, ever died of asthma, that there was nothing to worry about in these cases, and to do whatever was possible to ease the patient during attacks.

The cause was unknown and a sufferer was told that he had inherited the condition from his parents or ancestors some way back.

Now, however, our research men have been able to cure a large percentage of asthmatics, and have been particularly successful with children, thus saving very many a lifetime of misery.

They have been able to show that practically every case of asthma can be cured or greatly helped if the search for the cause is maintained long enough.

They point out that two important factors enter into the cause of asthma.

First, there is a certain disturbed condition of the blood and tissues of the patient that predisposes him to the attacks. This is a sort of slow or low poisoning, that may be hereditary, or which he may have acquired himself.

Second, there is some trouble at the entrance to the bronchial tubes, that is in nose or throat, that is like the match that starts the fire.

The patient's tissues are ready to have trouble started in them, and the tonsils, growths in nose, and other conditions do the starting.

Now the tissue condition, as you've been told before, is due to certain protein foods, like meat, eggs, and cereals, or to the pollen of certain flowers and weeds, animal fur, and so forth.

Therefore, if you can remove this low poisonous condition from the tissues, by lessening the intake of proteins, and also avoiding the pollen of plants, and then have any local nose or throat defect corrected, you are well along the road to complete recovery from the attacks of bronchial asthma.

It has been shown that the ultra violet rays will prevent these protein products from lodging in the lymph glands and small blood vessels in the lungs, thereby preventing asthmatic attacks.

It is not to be wondered at therefore, that when the discussion during a whole session of a medical convention was spent on the subject of asthma, that something definitely new as to cause and treatment was demonstrated.

Should Have Been Tanned
"Her smile was so irresistible," said a remorseful husband in speaking of "the other woman" in a recent divorce suit, "that I couldn't stay away from her." He basked in the sunshine of her smile until he got sunburnt.—Farm and Fireside.

Drafts on Posterity
The drafts which true genius draws upon posterity, although they may not always be honored as soon as they are due, are sure to be paid with compound interest in the end.—Colton.

DAILY LESSONS IN ENGLISH.

By W. L. Gordon.

Words often misused: Do not say "his talk treated on subjects of general interest". Say "treated of subjects".

Often mispronounced: chair. Pronounce a-khar, first a as in "day", last a as in "fare", accent last syllable.

Often misspelled: possess; four's. Synonyms: ally, accomplice, assistant, colleague, coadjutor, confederate.

Word study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: Imposing; adapted to impress forcibly. "It was an ample and imposing structure."

LOOK AND LEARN.

By A. C. Gordon.

1. Are there more married or single persons in the U. S., above 15 years of age?

2. What river is the "Father of Waters"?

3. What is the fixed mint value of a troy ounce of pure gold?

4. What causes twilight at dawn and dusk?

5. What republic is inhabited entirely by men?

KINGSTON H-Y AT WEST SHOKAN CHURCH.

Next Sunday evening at 7:30 o'clock a treat is in store for all who attend the West Shokan Church. A group of young men from the Kingston High School and Y. M. C. A., from 15 to 25 in number, will conduct the service, offering prayer, reading Scripture, singing male quartets and rendering orchestral selections and delivering several addresses.

These Christian youths are proof that not all young people prefer the frivolous things, but are rather seeking to develop that which is eternally abiding.

"Land of Goshen"

It is a matter for debate just where the Land of Goshen was located. It is not improbable that the Hebrews used the term to designate the whole country between the Brook of Egypt (Wadi el A'rish) and the Nile delta.

Spring Schedule
For K. & R. Ferry

On Sunday, March 25, the Spring
time table will be put in operation
on the Kingston-Rhinoceros ferry.
Under this schedule on week days
the first trip will be made at 7:40 a.
m. from Kingston and 7:20 a. m.
from Rhinoceros and the last trip at
7:40 p. m. from Kingston and 7:20
p. m. from Rhinoceros. On Sundays
the first trip from Kingston will be
made at 7:40 a. m. and from Rhinoceros
at 8:00 a. m. and the last trip
from Kingston at 8:20 p. m. and
from Rhinoceros at 8:40 p. m. later-
evening trips will be made at forty
minute intervals.
The full time table is shown in an
advertisement in this issue.

Famous Scholar

Gregor Mendel, who gave to science
the laws of heredity that have made
his name immortal, was a monk in the
monastery of Koniges-kloster, in
Brunn, Austria. He began his work
as a teacher in the technical school
at Brunn and continued his studies at
the University of Vienna. The mon-
astery garden was his laboratory,
where he observed the cycles of re-
production in plants. In 1865 he an-
nounced his discoveries before the
Natural History society of Brunn, but
received no recognition. In all, he
grew and studied 10,000 plants, per-
forming nearly 300 cross-fertilizations.

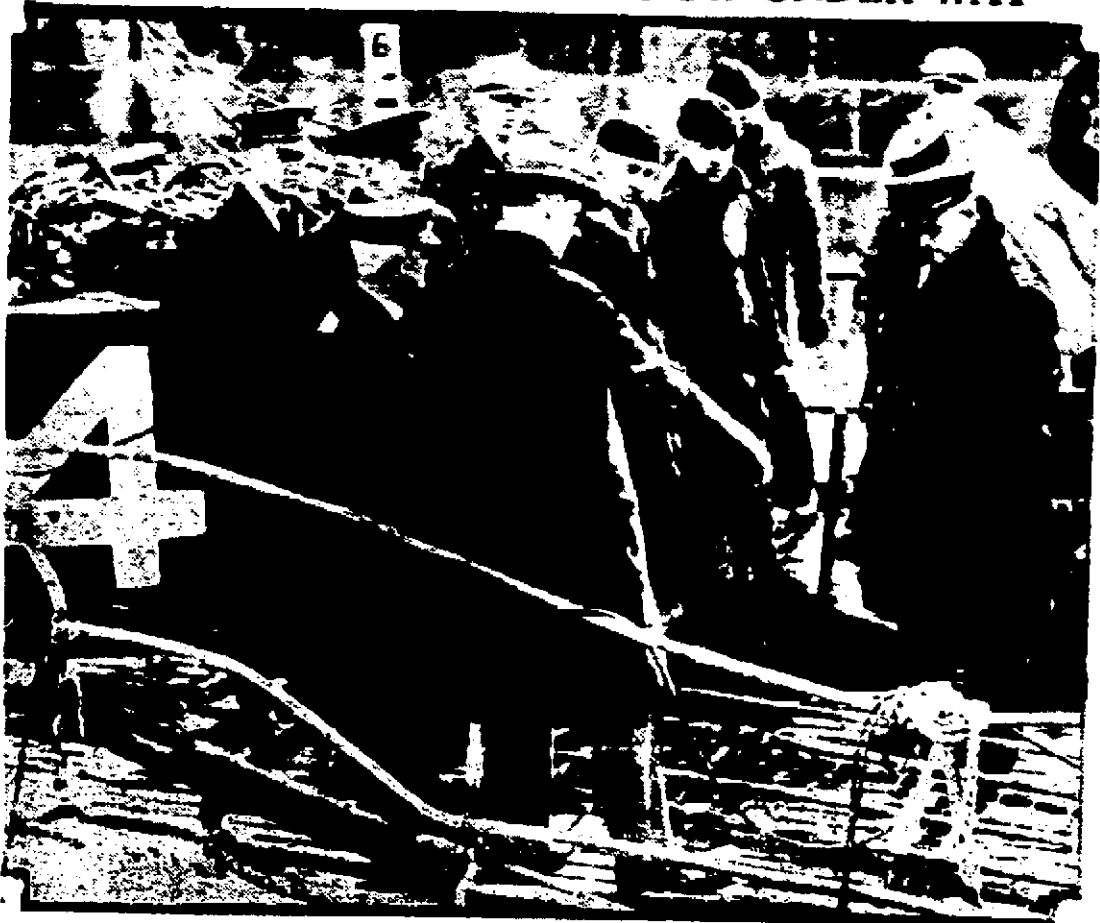

Bridegroom's Awful Fix

A Los Angeles bridegroom just
married in a fashionable church
filled with society folks discovered he
had forgotten to get the license. It
was an awful bad forget. The pastor
immediately cut the knot he had tied.
The prospective bride was hustled
home by her father. Meanwhile the
bridegroom was frantically cancelling
reservations for train and hotel ac-
commodations in order to camp on
the license bureau doorstep to com-
plete the formalities at the earliest
possible moment. And yet all he forgot
was the license.—Copper's Weekly.

DR. BOEVE TALKS
TO BUSINESS GIRLS

There was a large attendance again
at the Wednesday night supper of the
Business Girls' Club of the Y. W. C.
A. Wednesday evening. During the
supper the girls, led by "Mickey", and
accompanied at the piano by Miss Eva
Rand, who really inspires the girls by
her piano music, did some peppy sing-
ing and rehearsed some of the special
songs which they will sing at the Em-
ployers' Banquet next Wednesday
evening. Miss Alma Tyler announced
a food sale to be held on Saturday
afternoon beginning at 1:30 o'clock
at the Wonderly Store for the benefit
of the club treasury. Contributions
of food will be most acceptable, either
at the store or at the Y. W. in time

to be taken to the store, and the pa-
tronage of the public is asked.

Dr. Boeve was in an especially hap-
py mood and told the girls in his talk
of life in the middle west when he
was a boy living there and also of
some of his seminary days experi-
ences, brought to mind by a recent
meeting with old classmates. The
girls were delighted with his "really
truly" stories that gave them such
a good laugh. In closing Dr. Boeve
blessed the girls present to take a
vital and working interest in their
homes, their church and their state—
in its broadest sense—bringing to
these three great departments of life
and character building, the impetus
of the power of their own lives.

Before the meeting came to a hap-
py end, Miss Messinger asked all of
the girls present to try very hard to
persuade their employers to accept
their invitation for the banquet next

Wednesday evening at the Y. W.,
which they were planning to make as
happy an affair as possible.

PRESENTS MEDAL TO
SENATE HOUSE ASSOCIATION

Henry Dittus of this city, who, re-
cently found in the fireplace of an old
house being torn down, a bronze
medal struck to commemorate the
conferring of the degree of Doctor of
Philosophy upon the Rev. Dr. Henry
De Brann by the Roman Catholic Col-
lege at Rome, has presented the
medal to the Trustees of the Senate
House Association. Mr. Dittus is a
grandson of Leonard Dittus, who will
be remembered by the older residents
of Kingston as a fine citizen. Dr.
Drann was well known in Kingston,
where he had many friends.

Invalid Earl

Wearing his eightieth birthday, the
Earl of Balfour is confined to his
home in Prestonkirk, Scotland, with
an acute attack of laryngitis.
Physicians have ordered several
weeks' rest for the cabinet member.
(International Newsweek)

World News Made Up
of Wheat and Chaff

Do not be distressed overmuch by
news of evil. This is a wide, wide
world. It contains much that is bad,
but more that is good. Righteous-
ness is slowly, but surely, triumphing
over sin.

If you do not believe that, or mere-
ly have not realized it, turn for a mo-
ment to contemplation of happier
things. Turn your tired eyes from
the day's record of evil to the day's
golden roll of honor. There is more
of good news than of bad news today,
every day. There is more to see on
the sunny side, and it is more worth
seeing.

There are only two reasons for
gazing at ugly things: either that we
may more fully know evil when we
meet it, even in gilded robes; or that
we may grapple with it and blot it
out.

Broad highroads of honor lead to
every worthy goal of life. The mud
roads are in the lowlands, leading
only to dissolution and corruption. If
we travel the mud road it is at our
own volition.

Sin is not the harvest of life. It is
the chaff threshed from the whole-
some grain and will be swept from
the threshing floor. Why look upon
the chaff when the grain is there?

If some days the volume of chaff
seems greater than others, know that
the threshing has been more thorough.
This is a wide, wide world, and full
of sweetness for those who would find
it.—Helena (Mont.) Record-Herald.

Proof That Octopus
Must Have "Purchase"

Experiments have been made in a
specially devised tank in order to test
the truth of many stories told of oc-
topus attacking human beings and drag-
ging them to the sea bottom.

In the tank with the octopus experi-
mented with there was placed a
"dummy" of the same specific gravity
as a human being, and this was baited
with a crab. Attracted by this tem-
pting morsel, the octopus made for
the dummy, seized it in its power-
ful tentacles, and tried to drag it
under the water, but without success.
It then went to one side of the tank,
and, holding onto the edge of the
glass with some of its arms, it
dragged its prey beneath the surface
and crushed the crab shell with its
powerful jaws.

It is believed that these experiments
afford proof that the octopus can drag
its victims far below the surface of
the water only near rocks to which it
can attach its "suckers."

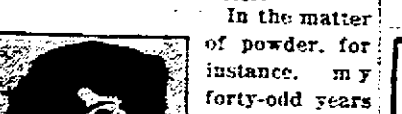

There is one spot in the Bay of
Naples where these creatures attain a
large size, and now and then a fish-
erman is reported missing.

Never Stable Foundation

It is not possible to found a lasting
power upon injustice, perjury and
treachery.—Demosthenes.

Powder Means Much to Me

My Edna Wallace Hopper.
The average woman considers the
actress hopelessly ahead of her in the
art of enhancing natural beauty.
The reason for this advantage is
that the actress makes a business of
attracting and she must "know how."
It is her bread and butter.

In the matter
of powder, for
instance, my
forty-odd years
on the stage
have made me
almost unhe-
dierably exact-
ing. I never
considered the
cost of my pow-
der, so long as
it pleased me.

After years
of searching, I
found in France
the powder that now adds the last
touch to my careful toilette. It sa-
tisfies me because it has the one qual-
ity I have found in no other powder.
That is, it blends so smoothly with
the texture of my skin that my face
never looks "made up" when I am
offstage.

Because it lends such natural
bloom I call it my Youth Powder. In
the immense quantities now produc-
ed I am able to offer it to women at
a low price.

If your skin requires a clinging
powder I advise using my Youth
Powder in the Heavy Type. It also
can be had in the Light Type. Both
have the same delicate elusive fra-
grance.

Get either type in Flesh, Brunette
or White at any toilet counter.

Can a mild
COUGH may be
dangerous

A COUGH is often a warning
signal that dangerous germs
are present in your throat, and
that the tissues are inflamed.
PERTUSSIN will relieve the
cough, help to clear out ex-
cessive mucus—and in so harmless a
way that even little children and those
weakened by illness can take it safely.
PERTUSSIN contains no narcotics
or any injurious drugs—yet it is con-
sidered by many physicians a most
effective remedy for coughs and bron-
chial infections.

Sold by all druggists in
large and small bottles.

PERTUSSIN
Safe for
Every CoughThe Toughest Old
Cough
CAN NOW BE STOPPED

Obstinate, lingering, coughs—the
kind that hang on and hang on and
rob a man of his sleep—the kind
that makes him peevish and all worn
out.

Those are the breed of coughs
that prove that common sweet cough
syrups are about as useful as a bot-
tle of ginger pop.

The quickest and surest way to get
rid of a persistent, contrary, die hard
cough is to take a teaspoonful of
Broncholine Emulsion four times a
day.

This REAL cough medicine is
made to stop the old timers—the
tough ones—the obstinate ones—and
it does it without any loss of time.

And remember, there is no chloro-
form—no sugar—no dope in this
grand cough medicine. It is a pre-
scription for stubborn coughs and
that's the kind it speedily conquers.

For ordinary coughs—two doses
is usually enough. McBride Drug
Stores will gladly supply you so will
dealers everywhere.

DORIS KENYON, First National

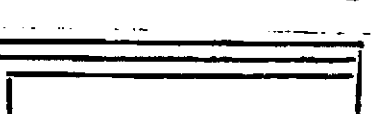

WOMAN'S GREATEST
CHARM DECIDED

Hollywood agrees
no one can star
without Smooth Skin

LOS ANGELES, CAL.—The pub-
lic demands exquisite smooth skin
in women, say the leading film
directors. No girl without a beauti-
ful smooth skin has ever proved
popular enough to star. They can't
pass the test of the close-up with-
out "Studio Skin," as it's called in
Hollywood!

Under the strong blazing Klieg
lights the slightest imperfection
will show. "The cleverest make-up
cannot fake beautiful skin under
the blinding lights of the close-up."

—a Lewis Milestone, United
Artists director, expressed it—"It
must be the real thing."
Nine out of ten stars are using
Lux Toilet Soap. And in the
dressing rooms of the big film com-
panies it is also the "official" soap.
Made by the method France
developed for her finest toilet
soaps, it gives the skin a wonder-
ful smoothness. "Lux Toilet Soap
certainly gives my skin that lovely
smoothness we mean by 'Studio
Skin,'" says Doris Kenyon, the
First National star. Lux Toilet
Soap is made by Lever Bros. Co.,
Cambridge, Massachusetts.

Conservation During April

Albany, N. Y., March 21 (AP).—Practically the entire month of April will be devoted to various activities along the lines of reforestation, forest preservation, and conservation, the New York State Department of Conservation has announced.

Governor Smith, in a proclamation issued Monday, set aside the week ending April 1 as Conservation Week in New York state.

The fourth week, April 22 to 29, is American Forest Week, sponsored by the Federal Government, in which the New York State Department of Conservation will cooperate, and with which it will combine its Forest Fire Prevention Week. Originally, these special weeks were observed at different times, but Governor Smith, noting that the aims outlined in both programs were similar, ordered that they be combined, thus eliminating the duplication of another special week for state observance.

Two of the three Arbor Days set aside by the commissioner of education for New York state also fall in April, since the third is early in May. The dates are April 20 and 27 and May 4. On these days the Department of Conservation will cooperate with the Department of Education in the establishment of school district forests, which are said to be rapidly replacing the older form of Arbor Day observance in which single trees were planted.

In connection with the observance of Conservation Week, Alexander Macdonald, conservation commissioner, has outlined the aims of his commission as "more and better forests; more fish; more game; better hunting; greater opportunities for healthful recreation; more and better water; more and cheaper water power; more and better parks—in a word, a better state in which to live."

Commissioner Macdonald points out that the loss from forest fires has been reduced to one-tenth of what it was 20 years ago, and that 25,000 acres of new forests are being planted annually. At maturity, these forests will be worth about \$400 an acre, with \$55,000,000 worth already planted.

The New York state nurseries, in which 100,000,000 young trees are growing to supply planting stock for the reforestation projects throughout the state, also will begin shipping in April.

In addition, the commissioner pointed out, 12 fish hatcheries and 10 field stations now distribute more than a billion fish each year. Four game bird farms and more than 100,000 birds every year to the state's covers, while foreign birds are imported yearly to improve the native stock.

The state parks in the Adirondacks and Catskills, containing more than 2,000,000 acres, are open to the public for free use for hunting, fishing, camping, hiking and canoeing, while 40 other state parks and reservations throughout the state, and 150 state-owned islands in Lake George also are open for recreational use.

Fourteen contracts for the purchase of additional land for use as forest preserves have been approved by the Board of Commissioners of the Land Office. The contracts are for a total of 3,229 acres at a total cost of \$25,627.

Nine of the contracts are for the purchase of 1,507 acres in the Catskill Forest Preserve, the remaining five being for land in the Adirondacks.

Another fact makes the month of April peculiarly significant to those interested in conservation enterprises. April 3 is the anniversary of the birthday of the late John Burroughs, widely-known naturalist. The occasion is observed by many nature clubs throughout the state.

GAS BUGGIES—The Spider and the Fly.

He: "We will live on love, darling. Won't that be wonderful?"
She: "Yes, but can you love me in the style to which I have been accustomed?"

To the good old apple slogan someone had added, "An orange a day keeps the dentist away." Now won't someone discover an antidote for lawyers?

A three-month note seems to reach maturity in no time at all.

Think how long Methuselah might have lived if he had:
Taken the Daily Dozen.
Joined the corrective eating society.

Taken chiropractic adjustments.
Played golf.
Eaten plenty of yeast.

Eaten an apple a day.
Attended musical comedies for that tired feeling.

Chewed gum for his digestion.
Had himself repaired with monkey glands.

Grown better day by day in every way.

Abe Martin spilled a mouthful when he said: "I've no trouble killing time when I've got a job, but it's certainly hard to do when I'm loafing."

Some women seem to enjoy being miserable so much that they give us the impression they'd be glad to have corsets come back so they would have something else to complain about.

Death, Taxes and Criticism.
If you're free and open-handed, As a spendthrift you are branded; If a little sum you've hoarded, You are stingy, then, and sordid.

Homely girls make the best wives, which might be all right if you never have to take them out in company.

Uncle Mark: "You young lads of today want too much. Do you know what I was getting when I married your aunt?"
Maurice (his nephew): "No, and I'll bet she didn't either."

Did you ever kiss a girl? Did she stand on her right foot and raise her left foot to the rear when you kissed her? Then why do they always do that way in the movies?

"Yeah," said the flapper tourist after she had been ushered through room after room of the magnificent palace at Versailles. "It's pretty nifty, all right. What picture they got playing here this week?"

Boy Friend—We're coming to a tunnel. Are you afraid?
Modern Miss—Not if you take that cigar out of your mouth!

"The skirt as now worn," says a fashion writer, "has reached the utmost limit of abbreviation." This is a sort of rash assertion that puts out flappers on their mettle.

Another fashion writer says that clothing styles "move in tides." We understand it now—the girls have been preparing for high water. According to a morning newspaper, women are now buying dresses on the installment plan. We have seen some of them wearing the first installment.

Well, anyhow, beauty is only skin deep and seldom knee high.

A Love Story.
"Canoe, Couple, Cupid, Congratulations, Car, Church, Choral, Cake, Champagne, Confetti, Contentment."

If fatness is a disease then an uncontrolled appetite is a disease.

Insanity doesn't affect murderers so much as murderers affect insanity.

Living costs are more than they used to be. If you live as people used to, but we don't call that living.

No matter how much or how little good looks you are endowed with, you are better looking when you smile.

Piece Workers All

The piece workers know they will be paid according to what they earn. Unfortunately, a great many non-piece workers do not realize that they, too, in the long run, are paid in accordance with what they earn. Each last of us is in reality paid by the piece—our progress in life depends upon our achievements. You had I and every other individual is a piece worker.—B. C. Forbes in Forbes Magazine.

The Daily Cross Word Puzzle

By RICHARD H. TINGLEY

Horizontal

- 1—A simian.
- 4—Abash.
- 9—Silence by force.
- 12—Lived in a monotonous way.

UNVEIL LEE STATUE AT STONE MOUNTAIN.

Atlanta, March 22 (AP).—On the anniversary of their surrender of Appomattox Courthouse, Va., in 1865, the thinning ranks of the veterans of the Confederacy will form again here April 9, to see the face of General Robert E. Lee, their beloved commander, unveiled in stone.

A curtain will be loosed from the sheer, precipitous side of Stone Mountain to reveal the head of Lee in profile, together with the unfinished portion of the equestrian figure which, when completed, will form the most colossal carving in history. Lee, astride his horse "Traveller," will be the dominating figure of the central group in the memorial being chiseled under direction of Augustus Lukeman, Virginia sculptor.

It will be the second time a head of Lee has been unveiled on the mountain. The first ceremony was

on January 19, 1924, when a head carved by Gutzon Borglum was unveiled in the presence of 10,000 persons.

The Borglum head, which was a cause of controversy in the courts, was discarded when Lukeman changed the design of the memorial and decided to place all the figures in bas-relief on the same plane instead of having them follow the contour of the mountain, as Borglum had planned.

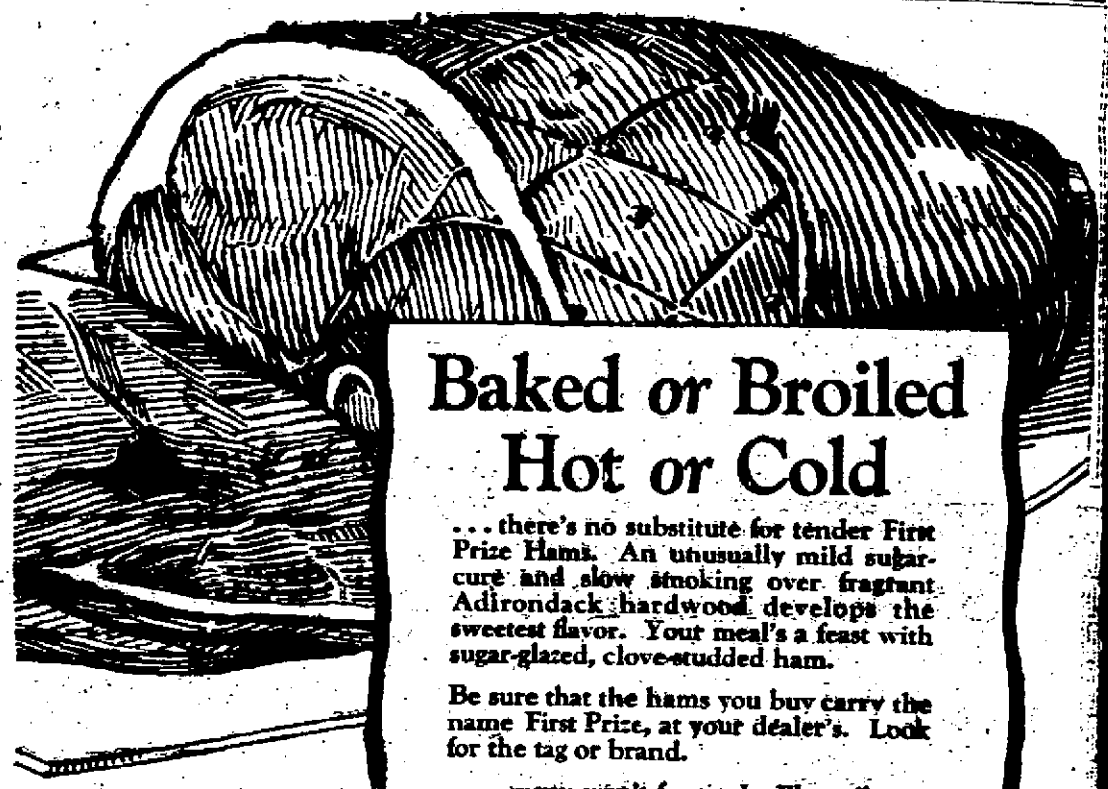

Salvation Army Gospel Meeting.

A Gospel meeting will be held at the Salvation Army citadel, 94 North Front street, Thursday at 8 p. m., conducted by Ensign and Mrs. Kliphouse and workers. A happy hour is assured with plenty of singing and real bright testimonies. This meeting is open to the public and much blessing and inspiration is promised. The message given by the Ensign will be the "God of Elijah."

HUSH MEN LIKE MOVIES BUT HATE LOVE SCENES

Sydney, Australia, March 22 (AP).—Australian aborigines walk scores of miles to see wild west movie pictures, but they detest love scenes in the cinema because they consider it uncivilized for men and women to "neck."

James R. Beckett, a government official, told members of a federal commission, investigating the motion picture industry of Australia, that the films generally had a detrimental effect on the minds of primitive people like the aborigines here and the natives of the Pacific islands. "After having seen a movie here shooting up a western town or horseback," Beckett reported, "my aboriginal boys took my revolver, mounted my horses and rode around the bush shooting up kangaroos and emus. They fired into the air or at posts when they could not get better targets."

QUICKLY RELIEVES RHEUMATIC PAINS

To get relief when pain tortured joints and muscles keep you in constant misery rub on Jolt-Ease. It is quickly absorbed and you can rub it in often and expect results more speedily. Get it at any drugist in America.

Use Jolt-Ease for sciatica, lumbago, sore, lame muscles, lame back, chest colds, sore nostrils and burning, aching feet. Only 50 cents. It penetrates.

FREE Send name and Address for 15-day trial tube to: Pope Laboratories, Dept. 20, Hallowell, Maine.

Do You Know What a Woman of 30 Should Weigh?

It all depends on her height of course.

If she is five feet seven inches in height she should weigh according to the best authorities 142 pounds.

If she is 5 feet 5 inches her normal weight is 134 pounds.

If she is 5 feet 3 inches she should weigh 127 pounds.

It's dangerous to be always striving to grow thin—the Adirondack Mountains and health resorts everywhere are filled with health-shattered women who will tell you that it doesn't pay to be too thin.

That is why so many thousands of underweight men and women are putting their faith in McCoy's Tablets.

McCoy takes all the risk—Read this ironclad guarantee. If after taking 6 sixty-cent boxes of McCoy's Tablets or 2 One Dollar boxes you don't gain at least 5 pounds and feel completely satisfied with the marked improvement in health—your druggist is authorized to return the purchase price.

The name McCoy's Cod Liver Oil Tablets has been shortened—just ask for McCoy's Tablets at any drug store in America.

Stop Skin Itching

Use healing liquid Zemo

Stop worrying about such skin troubles as Eczema. For a clean, smooth, healthy skin apply Zemo. It penetrates, soothes and quickly relieves itching. In most cases it brings relief from blotches, blemishes, pimples and other skin irritations that are dangerous if neglected. Use Zemo day or night. It does not show. 35c, 60c, and \$1.00.

zemo
FOR SKIN IRRITATIONS

A Raw, Sore Throat

goes quickly when you apply a little Musterole. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the mucus and pain and won't blister like the old-fashioned mustard plaster.

Musterole is a clean, white ointment made with oil of mustard. Brings quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chafes, frost-bite, sores on the chest.

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

Opening Display of... Cantilever Shoe Styles for Spring

The Smart Shoe For Comfort

THE universal desire for comfort in footwear is often outweighed by the desire for style. Some shoes are frankly smart—and cause unending fatigue and foot trouble. Some shoes are correct and comfortable—and lack style. Cantilever Shoes are as smart as they are comfortable and as comfortable as they are smart.

The newest styles for spring are now being shown at this shop. There is a Cantilever model for every occasion except strictly formal dress wear.

Cantilever Shoe

Every Cantilever Shoe is made with a flexible shank, so that the important foot muscles can gain strength through exercise, thus correcting or preventing weak arches and kindred ills. By keeping the foot well balanced and permitting it to function naturally, Cantilever Shoes enable you to go gaily through a busy day.

These new models fit perfectly at the heel; they hug the ankle. They fit the arch and provide room for the toes. They give you a beautiful fit—and a beautiful foot.

Come and see them.

WARNING TO RURAL RESIDENTS

The Central Hudson Gas & Electric Corporation has received many complaints from residents throughout the county that house wiring solicitors are misrepresenting themselves as Central Hudson representatives.

These solicitors prevail upon the people to sign certain contracts by making misleading statements regarding the Central Hudson Company's plan to extend electric service.

The Central Hudson Gas & Electric Corporation issues this notice as a warning for your protection and advises that before signing any contracts for house wiring you communicate with our representatives at Kingston, Saugerties, Catskill, Coxsackie, Tannersville or Rosendale.

Scout Powwow Here in May

Annual Gathering of New York and New Jersey Boy Scouts Will Bring More Than a Thousand Visitors to Kingston.

Boy Scouts, Scoutmasters, Scout Executives and others officially and unofficially connected with the organization in the district consisting of the states of New York and New Jersey will assemble in Kingston on May 18, 19 and 20 for their annual powwow. The Boy Scouts will encamp either at the Driving Park or in Forest Park, where they will live in tents, cook their own meals and generally put into practice the lessons learned in scouting.

Some of the men will do likewise, but it is presumed that a fair proportion of them will defy criticism and invite the charge that they are motivated by availing themselves of the comforts provided by Kingston's hotels. The powwow is self-supporting, so there will be no passing of the hat to raise money with which to defray expenses.

The number who will attend can-

not be stated at this time, but it's enlightening to know that at the powwow a year or two ago there were 1,945 Scouts and 158 men in attendance and that at least as many are expected this year.

ROTARY TOLD OF NEEDS OF CHAMBER OF COMMERCE.

A. R. Beal of Newburgh and Poughkeepsie, Wendell Phillips of Port Jervis, Boss Boy Scout H. N. Smith and Sam Shapiro, of Shapiro & Rubin of Kingston, were among the distinguished visitors at the Rotary luncheon at the Governor Clinton on Wednesday. Mr. Smith and Mr. Shapiro spoke briefly and the other visitors bowed politely when introduced.

Mr. Smith asked for moral support, not cash, for the Boy Scout powwow to be held in Kingston May 18, 19 and 20, at which time Boy Scouts from all over New York and New Jersey will gather here. It was promised and a committee was appointed.

The speaker of the day was President E. Frank Flanagan of the Chamber of Commerce, who set forth the achievements and needs of that organization and the present critical condition of its finances.

GOUDON'S CANTATA AT FIRST DUTCH CHURCH

Goudon's beautiful cantata, "Gallia", will be sung by the augmented choir of the First Dutch Church on Sunday at the evening service, under the direction of W. Whitting-Fredenburg. This work depicts the desolation caused by the destruction of Jerusalem as portrayed in the book of Lamentations, and the exhortation of the prophet, Jeremiah, to return unto the Lord and serve Him. Goudon's music is rich in its harmonic structure, faithfully portraying the character of the text. As evidence of the wide popularity of this work as a Lenten cantata, it was performed in three prominent New York city churches last Sunday. For this production, the soloist is Mrs. Benjamin Johnston, soprano of the church. The offertory at this service will be a duet, "My Faith Looks Up to Thee", sung by Mrs. C. F. Doty, contralto, and Herman LaTour, tenor.

REAL ESTATE TRANSFERS.

Deeds Recently Recorded With the County Clerk.

The following deeds have been filed in the office of the Ulster County Clerk:

William Ewigkeit and other to Ellenville Wood Novelty Company, a tract of land in village of Ellenville. Consideration \$1.

Ella J. Crane to William Benjamin Deyo and another of New York, a parcel of land in town of New Paltz. Consideration \$1.

Max Jacobson and wife to Samuel Satinsky and wife, a parcel of land on easterly side of Hasbrouck avenue Kingston. Consideration \$1.

A. R. Newcomb Oil Corporation to Hudson River Day Line, a strip of land on Delaware avenue, Kingston. Consideration \$1.

Charles Anderson and wife to Hudson River Day Line, a parcel of land on Delaware avenue. Consideration \$1.

NEW PALTZ.

New Paltz, March 22.—The Senior Class was in charge of the Chapel Program for Tuesday morning, from 8:15 to 9:00 o'clock. Miss Hoosier was chairman of the program committee. A most unusual and interesting entertainment followed the opening of chapel by Dean Fletcher.

Through the courtesy of the Dan Weed Piano Store the musical center in Poughkeepsie, there was demonstrated by Mr. Weed the new Orthophonic Electrola Victrola. This victrola plays 12 records, one after the other without a person touching it; the electricity is simply turned on and the machine plays on and on as long as there is a record. Among the records played in Normal Chapel were selections from the opera "Carmen," selections from the "Peer Gynt" suite, the "Sextette from the opera Lucia" a Victor Herbert number and several popular numbers.

Mr. Weed demonstrated the Orthophone before Miss Dunn's music appreciation classes and also before Grade Chapel at 11 o'clock Tuesday morning.

George Jayne of Gardiner is employed at the A. and P. store in town.

Mrs. Annie E. Eltinge has been visiting friends in Libertyville.

William Smith who has been visiting Mr. and Mrs. Jesse Quick, has gone to Binghamton where he will spend the spring and summer.

Miss Mary Gray Dean is entertaining her sister at the apartment on Main street.

Miss Wadsworth and Miss Rich visited some schools in New York city last Friday.

Miss Maud Richards of the Normal faculty visited the Moswell School in Brooklyn last week to observe the writing methods used there.

A new club has been formed by Dean Fletcher for the New Paltz Normal students who commute. As yet it is known only as the Commuters' Club, but they are looking for a better name than this. The following are the officers elected for the year: President, Mildred Goldberg; vice president, Margaret Falvey; secretary, Mary Bory; treasurer, Jessie Macdonald.

Miss Jennie L. Dunn spent the past week end in New York city.

Mrs. Edmund Eltinge entertained the Monday Bridge Club the past week.

Peter M. Hool of Albany visited New Paltz on business Wednesday.

Mrs. Charles B. Hall entertained friends at a supper party Saturday night.

Miss Cornelia DuBois and Miss Margaret Hasbrouck took luncheon Friday in Highland as the guests of Miss J. Wilklow.

A. G. Staedelmann of Springtown has opened a drug store in Rosendale.

Miss Helen Hasbrouck spent the week end with Mrs. Theodore Dennison in Middletown.

Mrs. R. E. DuBois entertained the Bridge Club at the home of Mrs. Perry Deyo the past week.

Oscar Eltinge of New York city has been visiting relatives in New Paltz.

Mr. and Mrs. Watson Eltinge, Sr., have returned to New Paltz after visiting their children in Albany, Irvington and Elizabeth, New Jersey.

Howard Zimmerman attended the reunion of his regiment in Boston Saturday and Sunday.

Word from Mr. and Mrs. Abram P. LePevre who are spending the winter at Melbourne Beach, Florida, says that the best hotels and apartment houses in Miami are filled with guests.

The Saturday extension course in Modern Drama at Newburgh closed March 17. Thirty-three teachers availed themselves of this extension

work offered by New Paltz Normal. All the members were particularly enthusiastic about their work and the course was most successful.

The Senior Literary meeting was held Tuesday evening. Miss Lillian Appel was in charge of the program. After the regular business meeting over which Miss Florence Abbott presided, Contemporary Writers, was the topic of discussion.

Mr. Bennett was invited to read some of his famous stories Wednesday evening at the Junior Literary meeting.

ZENA.

Zena, March 22.—The Zena Country Club will not be open Friday evening, March 23, on account of entertainment at the Dutch Reformed Church at Mt. Marion, when members of the Zena Country Club will present the "Bootlegger's Bride". There will also be a musical program presented by members of the club orchestra and a very pleasant evening is promised. All are cordially invited.

There will be a dance at the club house next Wednesday evening, March 28. Music by Pete Boice and the club orchestra.

Friday, March 30, there will be progressive pinocle at the Club house. Prizes for the winners of highest score and refreshments will be served.

Normandy Justice

Ernest Dowson, poet of tragic memory, when living at a Normandy village, got into a fight with a local baker and was arrested. A deputation of villagers went to the magistrate and pointed out that M. Dowson was one of the most illustrious English poets.

"Quite right to remind me," said the magistrate. "I will imprison the baker, instead."

And he did.—Detroit News.

Hard of Hearing

Arthur, Jr., age three, and his mother were in the basement of their home, mother hanging up some clothes and Junior playing with an old broom. After a while mother said: "Arthur, you must stop sweeping; you'll get dust all over mother's clothes." He swept ahead, however.

After a little time, again: "Arthur didn't you hear what mother said?" Whereupon he replied: "Yes, mother, but I didn't hear you very good."

Keep Fire Out of Woods

One of the simplest details of fire prevention lies in cleaning up the woodlot to reduce the fire hazard, says the American Tree association. Cut out all the dead trees and the weed trees such as cherry, hornbeam and gray birch, leaving enough partially to shade the pines. The waste brush should be piled and burned in a place and at a time when there is no danger from fire.

Almanacs No More

Rural folks read the same books as people in the city, a report from the Wisconsin state librarian shows. Farm and Fireside.

Flashes of Life Sketched in Brief

(By The Associated Press.)

New York.—Mr. and Mrs. James A. Stillman are going on a third honeymoon. Two years ago they went on a reconciliation voyage. Next month they will go to Paris to meet their son, Bud, and his bride, Lena, from the North Woods. And there will be shopping for Mrs. Stillman and Lena. "Bud has realized that girls can be sweet and unspoiled and at the same time smartly dressed," Mrs. Stillman explained.

Ottawa.—Is Miss Agnes McPhail, only woman in the Canadian Parliament, to wed? Well, she caught the bride's bouquet after a marriage in the Chinese consulate. Shi Cheng Liang, brother-in-law of the consul

general, was married to Phyllis W. Lin, whose father was once minister of justice at Peking. Bride and groom are Christians and graduates of the University of Pennsylvania.

New York.—Sir John Tenn, actor, whose father was once lord mayor of London, is to wed Miss Mignonne Manger, actress, whose father is a member of the New Zealand Parliament. The ceremony will be at the Little Church Around the Corner. Sir John has been on the stage 12 years.

Washington.—For President someone who'll run on the sole platform that he will repeal 500,000 of the laws of the United States. Such is the choice of Senator Tydings of Maryland.

New York.—John Bull will not stand for the American brand of Scotch. Guthrie McClintic, producer and husband of Katherine Cornell, actress, is back from England after being forced to pay \$15 at the Southampton dock. When he left New York he took five bottles of Staten Island Scotch given him by friends. There was no need of them aboard a British ship but British customs officials found them in his bag and fined him.

London.—A blue derby has created a sensation on Regent street. Since the wearer was not the Prince of Wales he has had no imitators.

New York.—The author of "Able's Irish Rose" is enthusiastic about Hollywood. Back from movieland Miss Anne Nicholas described it as: "Most modern city in the world. A community of the hardest working folk to be found anywhere. Up in the early morning, working till late at night, happy, earnest, lovable, childlike movie people. I wonder where all the wild Hollywood stories originated."

Atlantic City.—Quakers like ice cream. Statistics disclosed at a manufacturers' convention show that Philadelphia leads in per capita consumption with six gallons plus annually.

HADJI ALI, AT READER'S HAS IRREVERSIBLE STOMACH.

In an exhibition which mystifies and astounds the most critical of spectators, Hadji Ali, "the Great Egyptian Miracle Man," is at Reader's Theatre for the remainder of this week. Physicians of three continents have puzzled over the gastronomic mechanism of this human ostrich without success. He swallows from 60 to 100 glasses of water at a time. Scores of nuts of all varieties find their way down and up without any trouble whatsoever to Hadji. Handkerchiefs of varied colored hues are swallowed and disgorged according to the color desired by the spectators and as a fitting close he swallows a pint of kerosene which he ignites as he disgorges it, afterward quenching the flame by his previous swallows of water. And these are only the simplest of feats that Hadji's educated stomach can perform.

Philosopher's Death

Socrates, the famous Greek philosopher, in 39 B. C., was accused of impiety (the introduction of new gods) and of corrupting the youth. He defended himself in a famous speech which enraged rather than conciliated his judges. He was condemned, and drank hemlock in his prison surrounded by his disciples.

WINS COMMUTATION OF SENTENCE

Julia Palmer McDonald (right) of Mount Vernon, N. Y., will not die with her husband at Valleyfield, Canada. Her husband exonerated her in his second confession of implication in the murder of Houghard, a taxi driver. Premier Taschereau (above) has commuted her sentence to life imprisonment.

CHART SHOWS FACTS ABOUT INSURANCE FINANCES.

An insurance stock chart showing a two year comparison of figures for years ending December 31, 1926, and 1927, may be obtained without cost or obligation. This chart gives the following information relative to 90 of the leading insurance companies of the United States, showing name and location of company and the year organized, the paid up capital stock, number of shares, par value, book value and liquidating value of the shares, the net loss or profit of underwriting and investments, also net interest, dividends and rents earned. The admitted assets, net surplus, unearned premium reserve and the net premiums written; the annual dividend rate, dates when dividends are payable, percentage of yield at market price, percentage of market price to liquidating value, also market price asked February 15, 1927, and February 25, 1928.

This chart is neatly compiled and is being distributed complimentary by Max L. Reben at his office in the Kingston Trust Company Building, Central Branch, 515 Broadway.

SINCLAIR'S HORSES BARRED FROM MARYLAND TRACKS.

Baltimore, March 22 (AP).—Barring of Harry F. Sinclair's horses from Maryland race tracks because of the oil magnate's connection with Teapot Dome assumed political significance today, with state party leaders supporting and condemning in turn, the action of the racing commission.

Galen L. Tait, collector of internal revenue, and recognized Republican leader of Maryland, in a letter to Governor Ritchie, took issue with the state administration action in not permitting entries from Rancocas Stable, owned by Sinclair, to start in Maryland turf classes, claiming that the Democrats were attempting to overshadow recent state scandals

which disclosed a \$10,000 shortage in state road funds.

In reply, Governor Ritchie came to the support of the racing commission's indefinite suspension of the Sinclair stables, with the assertion that he believed it was the commission's duty to "keep racing on a clean and high plane."

Habit

The word "habit" has been so badly used that children are afraid of it. They are warned against all sorts of habits. Why not encourage children to form habits that will come in handy instead of warning them so much about habits that will bring grief? We take the negative instead of the positive approach.—Grove Patterson, in Mobile Register.

ELEANOR GUNN ON FASHIONS

Who Remembers Fluffy Ruffles?—When You See the New Beruffled and Beffrilled Frocks for Spring. She Comes to Mind

Paris—There is no doubt of the success of the printed dress for spring, first because the prints themselves are so worthy of success, and secondly because such charming ways of developing them have been evolved.

The pleated printed dress is no new story, although one that bears repeating, but the ruffled printed dress and the printed dress that is shirred or gathered gives fillip to the scheme.

Patou, Chanel, Molyneux, and others seem bent on feminizing the mode, and toward this end have introduced ruffles galore. In tiers, and in other forms, the ruffled gown has arrived, and while often in plain material, it seems more likely to succeed in printed effects.

Printed satin has not had the vogue in Paris that it has enjoyed in America. Printed taffeta seems

OUR DAILY PATTERNS.

A Pretty Frock for the Growing Girl. 6063. Flannel, jersey, velveteen or cotton prints may be used for this design.

The pattern is cut in 4 sizes: 6, 8, 10 and 12 years. A 10 year size will require 2 1/2 yards of 36 inch material together with 1/4 yard of contrasting material for facing on cuffs and belt. To finish with bias binding as illustrated will require 2 yards.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice.

Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1928 Book of Fashions showing color plates, and containing 509 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle. (Illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

On Rearing Children from CRIB TO COLLEGE

Compiled by the Editors of "CHILDREN, The Magazine for PARENTS"

Parental intelligence is weakness of character, or shirking of responsibility, and is never a kindness to the child.

How can the necessary obedience be obtained with the minimum of danger of suppressing a child's personality? Here are some rules:

1. Establish regularity in all things from the first.
2. Deal fairly with the child.
3. Answer the child's questions wholeheartedly.
4. Enlist the child's co-operation.
5. Avoid unnecessary conflicts of will.
6. Encourage the child to use his judgment.
7. Give the child all the freedom compatible with safety.

There is nothing like a garden of a child's own to promote industry and pride in achievement, and give him an opportunity to observe the surprising ways of nature.

Many women besides allowing themselves to become unnecessarily buried in the duties of maternity, conceive it their right to monopolize the new baby, and to elbow the father out of the picture, taking for granted the ancient mischievous notion that children are exclusively "women's business." This fallacy is largely to blame for the custom by which a new-made father finds himself superfluous in his own home, and takes refuge elsewhere. When this happens, he seldom returns to the old relationships.

To establish a new habit and break down an old one the best procedure is: Make the old habit very unpleasant; make the new habit pleasant.

Warmer-Than-Silk Hosiery

Worn by Women of Paris

Silk stockings are no longer a necessity for daytime wear with the chic Parisienne.

Sheer cotton hosiery is much in evidence at this season. It has the sanction of the line de la Paix and the women who shop there. More like than silk stockings are abroad in Paris in daytime.

Not only the mannequins who display the new styles in the dressmaking shops, but the women who buy them are wearing warmer-than-silk hose.

Metal Flowers

Lovely lilies and other exotic flowers make beautiful bits of decorative especially when they are all in silver.

And Potato Chips

Geologists have finally figured out that it has taken 300,000,000 years for the ocean to attain its present saltness. And now, if they haven't anything else to do, they might get to work on ham.—New York Evening Post.

Books Are Necessities

We should not be, in this country, far away from the concept that books are necessities, to be allowed for a child's food, clothes and a roof in the primary budgeting of every family. There is nothing startling in that concept at all—unless it is startling to say the mind should be considered to have necessities and a place in life as well as the body.—Des Moines Register.

IT'S NOT HARD TO GROW THIN

People all about you can testify to that. Most of the slender figures seen today have been won in easy ways. Many have been won by Marmola's prescription tablets, based on a modern scientific discovery. People have used Marmola for 20 years—millions of boxes of it. Now slender figures in almost every circle show what Marmola does.

A book in each box of Marmola gives the formula and states the scientific reasons for results. So users realize how and why effects are beneficial. A way which has done so much for so many deserves a rest from you. Make it now, watch the results for a little while, then decide. Ask your druggist today for a \$1 box of Marmola.

To women who think

all margarines alike!

If you are one of those who think all margarines alike, Jelke GOOD LUCK will be a revelation to you. For it has a flavor which simply can't be told from that of the most expensive spreads-for-bread. This flavor is the result of using nourishing meat products instead of cheaper vegetable oils. Try it... both on your table and in cooking.

JELKE GOOD LUCK

MARGARINE
THE FINEST SPREAD FOR BREAD
Wholesale Distributor, John F. Jelke Company,
83 Warren St., New York, N. Y.

Margaine-Lacroix Has Chosen a Fine Cross-Bar Pattern for a More Formal Daytime Frock, with Narrow Pleated Tiers in Diagonal Treatment on the Skirt and with Deeper Pleated Jabot Effects on the Sleeves.

more important here, although in mentally reviewing the collections as a whole, taffeta seems relatively unimportant. Some charming prints, though, are remembered, especially black taffetas dotted or sprigged with gray in a curiously blurred outline.

Taffeta dresses are ruffled and taffeta dresses are founced, for the wide gathered flounce has returned, and is seen either in uneven effects or in a raised back or front line. The taffeta robe de style remains a fixture, but it has a rival in the heavy bodied satin robe de style or in the more ethereal lace one. More and bengaline both rate above taffeta for suits and coats.

(Copyright, 1928, by Metropolitan Newspaper Service, New York.)

Remembrance Hurts

"If a woman takes a dislike to her husband," said Uncle Eben, "his worst punishment is remembering when he used to think he was some kind of a Romeo."—Washington Star.

No Scrubbing No Boiling

YOU'LL never know how easy wash-day can be until you try Rinso!

The whitest, brightest week's wash you ever saw—just by soaking and rinsing!

The secret is in the suds. Rinso suds are thick and creamy in any water—hard or soft. And they last until you're ready to rinse. These safe suds whiten and purify clothes—without boiling.

Since Rinso is granulated it dissolves completely. And it rinses off easily, carrying grime, grease and stains along. No "rubbed-in" soap remains to yellow your cottons and linens.

Rinso is economical; it goes so far. A little makes a great tubful of soapy suds. Not empty bubbles, but real suds.

Clothes Last Longer

OLD-FASHIONED washday scrubbing wears out clothes quicker than anything else. Rinso spares the clothes by gently soaking out the dirt. Then, too—Rinso contains nothing to harm your finest cottons or linens.

With Rinso, even the grimeiest parts become snowy with little or no rubbing. This scrubless way spares hands, too.

Give up old-fashioned washday habits! Try Rinso next washday. In washer or tub, it's all you need—no bar soaps, chips or powders.

You get your full money's worth when you buy Rinso, the granulated soap—it's so compact. Just feel how weighty the package is! For economy and best results, follow the easy directions on the package.

Hunting With a Stethoscope

By DWIGHT S. ANDERSON

A NATION-WIDE hunt for cases of tuberculosis in the earliest stages is in progress during the month of March. The expedition will be made up of thousands of physicians aided by 1,000 tuberculosis associations, armed to beat the wilderness of a complicated civilization and beard the scoundrel disease everywhere. The quarry is life, not death. The weapon is the stethoscope, not the rifle. The ammunition is knowledge.

edge, not bullets. Gun-bearers and porters are to bring up other essential weapons: the X-ray, the thermometer, the tuberculin test. The trained ears, eyes and fingers of the doctor aid in the hunt.

Perilous as is delay when a lion has been stalked, the consequence of inaction in the face of tuberculosis is equally fraught with danger. Once at bay, to run away from either is fatal. Hope lies only in battle. The issue may be a matter of seconds in sighting the lion or a matter of days in discovering the disease. Time is vital.

Footprints show the direction a lion has taken, and symptoms tell the hiding place tuberculosis has found. These early symptoms are thus described by the National Tuberculosis Association: "Too easily tired; loss of weight; indigestion, and cough that hangs on." Every one who finds himself exhibiting these premonitory signals should immediately seek a physical examination with bare chest; microscopic inspection of sputum, and perhaps an X-ray. Get the lion or the lion will get you.

And the discovery of the enemy—in time—this is the object of the universal search an army of public

Posters and car cards are telling the nation of the necessity for early diagnosis. Health departments, medical societies, lodges, churches, schools, chambers of commerce, public and private clinics, besides every tuberculosis association in the country, are co-operating. The money to pay for this campaign comes from the annual sale of Christmas Seals.

Is it worth while—this nationwide attack of an army of perhaps fifty thousand people? Yes, if we consider that there are an estimated number of 270,000 active and unknown cases of tuberculosis in the United States, and that prospects for their cure are dependent on early diagnosis. These people are unknown to themselves, their friends, their doctors and the public. Finding them before the disease has progressed to the stage where they, and everyone else knows they have it, is the only hope of realizing Pasteur's vision: "It is in the power of man to cause all parasitic diseases to disappear from the world."

Science guides this quest during the month of March. And those who are hunting with a stethoscope will measure their success in terms of human lives.

Will It Be Reed?

James A. Reed, Democratic Senator from Missouri, is one of the acknowledged contenders for the seat in the White House, which will be vacated one year from this month. (International News)

ALLABEN.

Allaben, March 22.—Mr. and Mrs. Ira Olmstead, Miss Ethel Gossio, Mr. and Mrs. Earl Holden attended the movies last Saturday evening at Phoenixia.

Mr. and Mrs. Ernest Bell of New York were guests of Martin Eckert last Saturday afternoon.

Mr. and Mrs. Carl Townsend were at their home Allaben Heights last Sunday.

Edward Ocker and family were stopping in Kingston last Friday.

Walter Prior has purchased a new Ford sport car of Millard in Kingston.

Allaben was visited Sunday morning with quite a snow storm. The county snow plow went through during the day.

Doctor Wolf of Poughkeepsie was at his home the week end. Dr. Place of Andes expects to locate in Phoenixia about the first of April. He comes well recommended.

Mr. and Mrs. G. H. Guinick, Jr., of Shandaken and son, James, were guests of Mr. and Mrs. G. H. Guinick, Sr., Monday afternoon.

Mrs. Ralph Terry and Mrs. Harry Miller of Shandaken were guests of Mrs. E. J. Colwell, Jr., last Saturday afternoon.

Mrs. G. F. Van Keuren was a guest of her daughter, Mrs. E. H. Dickson at Arden last week Thursday.

Mrs. Sarah Bush has returned to her home after spending a few weeks with her daughter, Mrs. Russell Frasier at New Kingston.

Accusations That Fatten

You and coffee in themselves have no qualities which are fattening. It is the sugar and the cream used in them that are high in calories.

Money for Pensions

The pension bureau says that no special or separate taxes are made to secure money for pensions. They are paid from the general funds in the treasury of the United States, no matter from what source derived.

ACCORD.

Accord, March 22.—Mrs. Iona Phillips of Lake Mohawk is spending a few days with Mrs. Drake. The Country Woman's Club of the Accord M. E. Church will serve a hot roast pork dinner Thursday, March 22 at 12 o'clock. The public is cordially invited to attend. There will be a business meeting of the Country Woman's Club at three o'clock following the dinner.

The first object of the season were received at the local post office last week.

Joseph Ebert is a new employee at the Accord Farmers Coop food store. There will be Communion service at the M. E. Church Sunday morning at 11 o'clock. There will be a special offering taken for the Broadway Temple, New York city. This is the last Sunday of the conference year. Everyone is welcome. The pastor, the Rev. George H. Cooley, will leave for conference next week. It is desired that he be returned for another year.

The last illustrated lecture, "Touring Around the World," part two, will be given in the M. E. Church Friday evening at 7:45. The preparatory class will meet at 9:45 and the choir will meet for rehearsal after the lecture.

WUTTACAHONTS

Wuttacahonts, March 22.—The Wuttacahonts will meet at the home of Mrs. Archie DeJoy on Thursday afternoon, April 5.

Arrangements are being made by the young people of the Reformed Church for an Easter program.

Mr. and Mrs. Fred Simpson and daughter of Accord entertained at their home Sunday afternoon and evening Mr. and Mrs. C. Lyons and son of Accord. Mr. and Mrs. Stanley Kelder and Mr. Robert and Franklin. Mr. and Mrs. Charles D. Osterhout and Mr. and Mrs. Kenneth Rider. A pleasant time was had by all.

John Markle of New Paltz has been visiting friends in this vicinity. Several from this place attended the burial service of the Rev. Frederick E. Foerster at Hurley on Saturday afternoon.

Wisdom of Children

"I had rather take a walk with a wide-awake child than with the wisest man that ever lived," said the philosopher, "for the questions of the child bring out things an older person would never think of."—American Magazine.

New Way to Relieve Tired, Aching Feet

Did you know that you can instantly relieve your aching feet by simply taking them in the water to which you have added a little Golden's? Golden's is a powerful soothing salve for tired, aching feet, and it is refreshing in the bath. Get Golden's at all dealers.

Detroit Depends On Old Guard

Mage: For Better Position This Season Lies in the Same Pitchers—Infield Reserve Question Presents a Problem.

San Antonio, Tex., March 22 (AP).—Detroit will depend on the old guard in the approaching pennant race. The Tigers will make plans for some players whose service was gained in trades during the winter. Outlook is young as baseball players so the seniors will be called on to bear the brunt while the younger generation stands and waits.

Hope of the club for better position at the close than the fourth place occupied last year lies in the same pitchers with better arms. Earl Whitehill, a left-hander with a marvelous curve ball, and Sam Gibson, a big right-hander with a world of stuff, were in and out in the last campaign. In the spring tuning up they seem to have definitely returned. Addition of Elam Van Gilder, formerly of the Browns, for relief calls will release Lil Stoner for starting duty with Kenneth Holloway. George Smith and Haskell Billings, the collegian who is up and coming. Owen Carroll, another collegiate contribution, may team up with Van Gilder in the reserves.

This array of pitching talent leaves little room for additions from the 1928 chop. Vic Sorrell comes from Toronto with a good chance to stay and Earl Hubbell, a left-hander from Oklahoma may crowd in. The infield will be made up of the same men who played in 1927 but they will be re-set. Johnny Neun will play first base on a whole time instead of a part-time basis and Marty McManus will be assigned to third base. Charley Gehring will take care of second and Jackie Tavenor, completely recovered from his injuries, will play short and show how hard a little fellow can hit.

The infield reserve question presents a problem Manager Moriarty has not yet solved. Detroit has grown accustomed to having two first basemen with Neun and Blue available, and now that Blue has been sold to St. Louis it is possible that Bill Sweeney, purchased from Fort Worth, will be kept as Neun's understudy. Warner, last year's third sacker, may be traded for a third catcher. Chick Galloway, formerly of the Athletics, who came to the Tigers in a trade via the Browns, is regarded as a certain utility choice, as he takes the infield positions as he finds them and can play them all, one at a time. This lineup leaves Nolen Richardson and Frank Emmer unplaced but presenting impressive bids for consideration. The club is a bit overstocked on infielders.

Harry Rice, who came from the Browns, will play center field and show a fast pair of heels on the bases. He will be flanked by slower performers but hard hitters in Harry Hellmann and Bob Fothergill. Hellmann led the league in hitting last year and has been pounding the ball hard enough in practice to suggest that he may repeat. Fothergill has much perspiration ahead of him, as he is several pounds in excess of the best tonnage for an outfielder. Red Wingo will do the outfield utility role and he may be joined on the bench by Paul Easterling, recruit from Bloomington in the Three Eye League.

Larry Woodall and Marvyn Shea of last year's catching staff are set but are being crowded for first consideration by two new catchers, Phillips from Nashville and Hargrave from Toronto. Phillips is a Jack of all trades and has no hesitancy in attempting to play any position on the field. Manager Moriarty may solve this puzzle by keeping the whole quartet.

PORT EWEN FIVE PLAYS ITS OPENING GAME FRIDAY

The newly organized five of Port Ewen, sponsored by Merritt Every, the well known garage dealer of this vicinity, will play its opening game Friday night, March 23, at Port Ewen Prithian Hall. They have secured the Ponckhockie Congregational, one of the strongest teams representing the Sunday School League, for the first game. There will also be a preliminary game between the Port Ewen Girls and Columbia Shirt Factory Girls. The first game will get under way at 7:30 o'clock. Dancing will follow the final game with Tony Turek's orchestra playing.

Plants in Sick Room

Except in the case of hay fever, or similar disease, it is beneficial to have growing plants in the same room with a sick person.

TIME TABLE OF ULSTER & DELAWARE R. R.

Effective October 22, 1927.
Trains are due to leave this city on Saturdays:
Roundabout 7:30 a. m.; 12:30 p. m.
Trains are due to arrive as follows:
Union Station 11:30 a. m.; 9:30 p. m.
Roundabout 11:30 a. m.; 9:30 p. m.
*Daily. *Daily except Sunday.

Stage Set for Bouts Friday

Frenchy Duwez, local scrapper, expects to give the fans who attend the armory bouts Friday night a real scrap when he meets Jackie Hubbell of the 36th Infantry in a six round boxing bout.

The French boy, who has been scrapping for some time, has changed his style from that used several years ago. He was of the type that tore into an opponent and took everything in order to land that dynamic wallop which he possesses. After much experience he has adopted more scientific methods to advance. However the fighting spirit which he has in addition to his wallop is expected to make his meeting with Haskell one of the best attractions on the Friday night's card. Haskell needs every victory he can turn in to his manager for he intends to step high on the ladder of army pugilism. He will leave a stone unturned in trying to defeat Duwez.

Joe Myers is working out at the armory every day in preparation for his tilt with Tommy Gans of the 268th, who holds one victory over the Kingston scrapper. Myers is going strong at present after his recent win over Ruby Jackson and with the assistance of Vince Hart, who made a name for himself in rings in this vicinity, expects to beat his former conqueror.

Dewey Van Buren is in good shape for his meeting with Phil Moser and depends much on defeating his opponent for a new start in the ring. Van Buren was one of the leading scrappers here in bygone days and will probably have a number of "rooters" to cheer him on when he enters the ring Friday night.

The other scraps on the card promise to be the best ever put on here: Frankie Konchina vs. Oscar Pultz; "Red" Edgerton vs. Kid Rash and Charley Von Reeden vs. Al De Silva.

Tickets may be obtained now, to prevent a rush at the door of the armory, at Murphy's news store on the Strand, the armory and Leotta's barber shop, 19 Railroad avenue.

WOULD BAR FRENCH ATHLETIC MASQUERADERS

Paris, March 22 (AP).—On the ground that professional athletes of France, visiting the United States in search of dollars, have permitted themselves to be billed as Italian in order to increase the gate receipts, a movement has been started here in both the boxing and cycling federations to have such athletes disbarred from competition in France. Athletes accused include Maurice Brocco, bicycle rider; Kid Francis and Tony Ascensio, boxers.

Brocco is declared to have started it all some years ago. Born in Florence in the Aisne department, a little town well known to many members of the A. E. F., Brocco always was featured as an Italian and even gave out an interview in which he exhibited a bitter resentment of a story that he was French.

Kid Francis, born Bonanure at Marseilles, France, is now billed in the United States as the "Italian contender for the bantamweight championship." Tony Ascensio of Oran is another boxer whose name sounds Italian.

The limit was reached for the federations when I. Guyot, a bicycle rider, announced he was leaving for America to try his luck. There he would become known as Guyot of Italy.

"There is more money in it," Guyot is quoted as having said. "There are 20 Italian spectators for every Frenchman at the velodromes in the United States."

ON HEARING THIS THE FEDERATIONS ISSUED SOMETHING OF AN ULTIMATUM WHICH MAY MEAN THE WOULD-BE ITALIANS WILL HAVE TO SEEK REFUGE IN MUSSOLINI'S DOMAIN OR IN SOME COUNTRY OTHER THAN FRANCE IF THEY WANT TO COMPETE UPON RETURNING TO EUROPE.

OXFORD-CAMBRIDGE COEDS TRAIN FOR ROWING RACE

Oxford, England, March 22 (AP).—Women rowers of Oxford and Cambridge, preparing for their second annual race, are training as hard as the men of the universities.

One important feature of the varsity rowers' training, however, is dropped—the required drinking of two and a half pints of beer each day plus occasional champagne. The hours of practice and even the time of the race is kept secret to keep the fair oarsmen from being made objects of too great curiosity. To prevent strain upon the contestants, the crews do not row abreast in the race but go over the course separately, the winner being determined by judges.

Fanned 27 Men.

Jackson, Miss. March 22 (AP).—Rufus Smith, Detroit pitcher fanned 27 men to Montreal this year, fanned 27 men in a nine inning game when a pitcher for the Westtown, Pa. Press. The opposition was Swarthmore Prep. He's a southpaw.

Girls' Industrial League Results

The girls basketball team of Jacobus will meet the Fuller's quintet the armory bouts Friday night at 7:30 o'clock in the Y. W. C. A. gym.

The former team will take tonight's contest the team will be led by first berth with the Jacobus. Tonight's games, which are expected to be largely attended, will mark the sixth evening of the girls' tournaments. The Jacobus have alone had five victories, Fullers four, and Van Slyke & Horton one. Not much interest in basketball this year but many have been attending the games to cheer the teams.

The following scores were registered when the Girls' Industrial League games were staged at the Y. W. C. A. on March 15:

Jacobus.

	FG.	FP.	Tot.
Ryan, Margaret, rf.	5	2	12
Ritter, Mildred, rf.	1	0	2
Moser, Viola, lf.	1	0	2
Stones, Mary, c.	0	0	0

Score at end of first half—Fullers, 18; Columbia, 3. Fouls committed—Fullers, 9; Columbia, 3. Referee—L. D. Herdman. Timekeeper—Ruth Dell. Time of halves—16 minutes.

BASEBALL, TRACK AND TENNIS SCHEDULES OF R. P. I.

Troy, N. Y., March 22 (AP).—The Rensselaer Polytechnic Institute baseball nine will play Pratt Institute at Brooklyn, April 13, according to the schedule posted by Captain Harry A. Van Velsor, director of athletics.

Other baseball games scheduled are: April 14, Stevens Institute at Hoboken, N. J.; April 21, Hamilton College at Clinton; April 28, Union College at Troy; May 12, Union College at Schenectady; May 26, St. Lawrence University at Troy; June 9, R. P. I. Alumni at Troy.

The following track meets have been listed: April 28, St. Lawrence University at Troy; May 5, Hamilton College at Troy; May 12, Middlebury College at Middlebury, Vt.; and May 19, Norwich University at Troy.

In tennis there will be the following contests: April 28, Stevens Institute at Hoboken, N. J.; May 5, State College for Teachers at Troy; May 19, Pratt Institute at Troy; and May 26, St. Stephens College at Annandale.

THESE ATHLETES TOSS STUDIES FOR A LOSS.

Houston, Tex., March 22 (AP).—The idea that athletics and scholarship do not mix is given a decided setback at the Texas A. & M. College. Six star athletes are on the honor roll.

Four of them, H. P. Wythe and E. J. Mosher of Dallas, W. S. Fisher of Livingston and E. E. Fingar of Galveston, were members of the football team which won the Southwest Conference championship last fall. J. R. Kennedy of Denison is a track man and L. E. Dittman of Houston plays on the baseball team.

COACHES TO DON TOGS TO TRY OUT NEW RULES.

Lawrence, Kas., March 22 (AP).—A team of the country's leading basketball coaches may be seen in experimental action when the National Basketball Coaches' Association meets in Chicago April 5 and 6.

Dr. Forrest C. Allen, of the University of Kansas, president, has asked all the coaches to bring their basketball uniforms so that, if any question is raised as to the merit of a new rule, they themselves can test it on the gymnasium floor.

Sportsmanship To Be Discussed

Troy, N. Y., March 22 (AP).—Daniel J. Kelly, director of physical education at Harvard University, will be one of the speakers at the annual conference of the New York State Division of the Sportsmanship Brotherhood in this city, tomorrow.

The conference will be held in connection with the state high school basketball championship tournament which opens tomorrow.

Mr. Kelly was formerly a member of the New York State Military Training Commission, and the Physical Education Bureau of the New York State Department of Education. He is a member of the National Basketball Rules Committee and in 1913 was named by the late Walter Camp as quarter-back in his all-American selection. His subject will be "Sportsmanship in the Colleges."

Reports will be given at the conference by representatives from the various high schools on activities of the past year which have helped to develop the Sportsmanship Brotherhood program. Dr. I. F. McCormick, principal of Albany Academy, will preside, and the report from that school will be given by Edwin M. Shults, 3rd, a member of the senior class.

Miss Lena Lepitz, of the Saratoga Springs High School Chapter, will speak on "Sportsmanship from the Viewpoint of a High School Girl." Miss Elizabeth Stanford, of Jamaica, and Harry J. Linton, principal of McKinley Junior High School, Schenectady, will discuss "Sportsmanship in the Junior High School." Everett T. Groat, supervisor of physical education at Schenectady, and L. S. Hill, director of physical education for Albany public schools, will talk on "Sportsmanship in Intra-mural Activities."

Students of Ilion High School will present a one-act play and the winners in contests for songs, posters and one-act plays will be announced. Daniel Chase, executive secretary of the brotherhood, will discuss the value of these contests, and other promotion methods.

The conference will open at 3 p. m. in the music room of the Y. M. C. A., followed by a sportsmanship dinner, after which the delegates will attend the semi-finals of the basketball tournament.

Dr. James Edward Rogers, of the Playground Association of America, will speak at the dinner on "National Progress in Sportsmanship."

George Adair, of the sales research department, John Hancock Mutual Life Insurance Company, Boston, will talk on "Application of Sportsmanship Principles to Business Problems."

CLEVELAND MURKIN GETS BLOSS'S ROOM.

New Orleans, March 22 (AP).—Billy Evans, American League pitcher for a score of years, is now general manager of the Cleveland Indians. He would like to see the name carried forward in active play so he resigned Billy Evans, a pitcher of Scotdale, Ga., who won 15 out of 29 games pitched last year.

The first contingent of Cleveland players reached New Orleans before the crowd of visitors for Mardi Gras had returned home and hotel rooms were at a premium.

The hotel at which the club was to stop had been warned that "Billy Evans" was the "boss" of the Cleveland club and he must have a room at all costs. The rest of the gang could be taken care of as opportunity offered.

Billy Evans, the general manager, was not in the first group reaching the hotel, but Billy Evans, the pitcher, was, and when he registered he was promptly conducted to the hotel's best suite, while Manager Roger Peckinpaugh and other stars cooled their heels in the lobby awaiting assignment to rooms.

Pitcher Billy Evans did not occupy the royal suite long. When it was found that the general manager would not be among those present for several days, his namesake was shunted along to less elaborate quarters with the other "bushers."

YANKS WIN, JOE DUGAN HITS FIRST HOMER.

St. Petersburg, Fla., March 22 (AP).—Whether it was due to Waite Hoyt, who made his first mound start of the year, or other causes, the New York Yankees at last have won a ball game.

Beaten in their first four games, three times by the Boston Braves, the world champions rose in their wrath yesterday and gave the Braves an eight to two beating. Hoyt pitched the first four innings and allowed only two hits. In the absence of any hitting at all by Babe Ruth and Buster Gehrig, "Jumping Joe" Dugan hit a home run, a double and a single in three official trips to the platter. The homer was the first credited to any Yankee this season.

ST. MARY'S LAST TO MEMORIAL AMERICANS

The Memorial Americans broke the five-game winning streak of the St. Mary's Parochial School quintet on the school team's court Wednesday in an extra period which ended 14-16. The score at the end of the regular playing time stood 15 all.

Rogers and Farber of the winners scored 4 and 5 points respectively while McCloskey did St. Mary's best point collecting six markers.

The score:

	F.G.	F.P.	T.P.
Lerine, rf.	1	0	2
Rogers, lf.	2	0	4
Farber, lf.	2	1	5
Serola, c.	2	0	4

Total	6	4	16

VIRGIL BARNES NEEDS SOME MORE TRAINING

Bradenton, Fla., March 22 (AP).—If the 11 to 10 victory the New York Giants pulled out of the fire over the red hosed Boston Americans yesterday proved anything at all, it demonstrated that Virgil Barnes needs some more training.

Virgil went into the box in the sixth inning with the Giants leading by six runs. The longer he stayed in the worse he got. The Red Sox got one run in the sixth inning, two in the seventh and five in the eighth to go into the lead 10 to 8. However the Giants got two runs over in the ninth, tying the score, got a man on base and Mel Ott, 19-year-old pinch hitter, drove over the winning tally with a long triple. The Giants got twenty hits, four of them going to Bill Terry.

Baseball and Business.

Cambridge, Mass., March 22 (AP).—Little Doc Gautreau, Boston Braves infielder and the smallest player in the major leagues, has gone into the automobile tire business. While he is grabbing drives on the diamond his business partner will be grabbing drivers.

Consider Tunney's Reply Evasive

New York, March 22 (AP).—The State Athletic Commission tomorrow may consider the advisability of suspending Gene Tunney, world heavyweight champion.

The commission yesterday pronounced receipt of a telegram from the champion in which Tunney said he had signed with Tex Rickard to defend his title "against the best available opponent as soon as Rickard has arranged to sign his selection and stage the contest."

The telegram, which was in reply to one from the commission, failed to deal specifically with the challenge, now on file here, of Tom Heeney, Jack Sharkey and Johnny Risko. The commission, in its telegram to Tunney, had informed the champion that his six months period of grace expired today and asked him what he was going to do with the challenge. Although the commission announced it would have nothing to say about the situation until its regular meeting tomorrow, it was learned unofficially that the boxing fathers considered Tunney's reply evasive. Unless something occurs in the meantime to alter the situation, Tunney's suspension for failure to defend his title within six months, appears certain.

HARVARD WILL HOLD UP PICKING ROWING CREWS.

Cambridge, Mass., March 22 (AP).—It will be late in the preliminary practice season this year before Harvard begins picking its rowing eights. Coach Ed Brown, who has just put a hundred oarsmen to work on the Charles river, indicates he will follow the same policy in picking his crew this year as last.

As soon as rowing conditions become normal he expects to cut his squad down to about four boat loads. These he will keep as evenly matched as possible, with lots of racing among the crews. The choosing of an all-star eight will be made just before the competitive season gets under way.

Only the heart-leaves of the tobacco plant are good enough for OLD GOLDS

That's the bedrock reason for "not a cough in a carload." The tobacco itself! Indeed, the whole why of OLD GOLD'S honey-like smoothness rests in these five tobacco facts:

- [1] The finest tobaccos that grow
- [2] Only the "heart-leaves" from the heart of the tobacco plant
- [3] Selected for their silkiness and ripeness to insure that honey-like smoothness
- [4] Extra long mellowing and ageing in a temperature of mid-July sunshine
- [5] All tobacco . . . pure tobacco . . . the finest tobaccos that grow

Legion Dinner Here Tonight

National Commander Edward E. Spafford of the American Legion, will visit Kingston for the first time tonight when he will be the honored guest of Kingston Post at a banquet in the Governor Clinton Hotel.

Covers will be laid for 250 at the banquet and many outside from servicemen are expected to be in attendance. The banquet will be served at 8 o'clock, after which Commander Spafford will speak.

The honored guest of the Legion will be taken to the Memorial Building on West O'Reilly street after the banquet, where he will probably address members who could not attend the function at the Governor Clinton Hotel. The Legionnaires have planned a good time for their guest.

Service at High Falls. Evening prayer and service will be conducted at St. John's Church, High Falls, for the 5th Sunday in Lent at 7:30 by Father Henry. Church school at 10:30 a. m. Confirmation instruction for children at 7 p. m.

Summary of 1928 Legislature

(Continued from Page One.)

Based on labor legislation, the State Federation of Labor during the session adopted a resolution endorsing him as the "choice of the body for the Democratic presidential nomination, and calling upon labor federations of other states to give him their support.

Slight Flurry Over Labor
The labor situation also precipitated a slight flurry between the Governor and the Legislature about the middle of the session, when statements made by members of the Industrial Survey Commission with regard to the administration of the state labor department met with objection from the executive. While the commission was going ahead with an announced inquiry into the administration of the workmen's compensation bureau, the Governor appointed Prof. Lindsay Rogers of Columbia University as a liaison and a commissioner to investigate the assertions. The differences were smoothed out satisfactorily within a short time, and little more was heard of either investigation during the remainder of the session.

Banking Given Attention.
Considerable attention was devoted by the Legislature to the subject of banking as the result of a comprehensive report handed down by the joint commission on savings bank investments. Four bills designed to broaden the field of investments for this class of institutions were passed by both houses toward the end of the session, and were signed by the Governor yesterday. One measure authorized investment in bonds, notes and other obligations of municipalities; a second in railroad corporation bonds; a third in other public utility securities; and the fourth in promissory notes secured by pledge of certain stocks and bonds.

Investigations.
Appropriations ranging from \$3,000 to \$50,000 for investigations of various subjects were voted in connection with creation of new committees, or commissions and extension of the terms of some old ones. Among those carried over until next year were the industrial survey commission, the committee to study recodification of the town law, that charged with a study of almshouses and the poor laws, the committee which studied savings bank investments, the committee on corporation laws, and the state crime commission. New commissions included one to study the decline of the sheep industry, a joint legislative group charged with a comprehensive survey of aviation and its development, and another body to

study reorganization. The Legislature devoted considerable attention during the session to the subject of aviation. A visit from Colonel Charles A. Lindbergh and other noted fliers and federal aviation officials on February 23 materially helped to keep the legislators informed of the state's aviation needs.

The first bill introduced in each house at the start of the session on January 9 called for conformance to the federal regulations regarding licensing of airplane pilots and registration of aircraft flying solely within the boundaries of the state. Within two days after the visit of Colonel Lindbergh, the measure became a law. When the young flier visited Governor Smith on February 23, he witnessed the signing of another bill authorizing establishment by cities of airports outside of their boundaries.

Important Crime Measures.
The legislature passed a number of the more important measures introduced by the crime commission. After sharp fights on the floor of the two houses, one of the principal bills to fall of enactment by reason of unfavorable action by the Assembly codes committee, was the so-called "pistol" bill, intended to impose more stringent regulations on the use of fire arms.

In its place there was reported out the Cuvillier Bill, intended to allow a householder to have fire arms in his dwelling, a merchant in his place of business, and a bank or express messenger to carry a weapon while employed. The measure passed the Assembly but had failed to appear in the Senate up to adjournment day.

Two measures designed to curb the operations of persons dealing in stolen property were enacted. One of the measures provided that where a person is charged with criminally receiving stolen goods, the persons selling them to him shall not be deemed his accomplice and his testimony shall be considered by a jury. The second bill provided that a dealer who does not ascertain by reasonable inquiry that a person selling property to him has a legal right to do so, shall be presumed to have purchased or received such property knowing it to have been stolen.

The subject of investment trust regulation also came before the legislature, but bills designed to accomplish the purpose passed only the Senate. Reaching rules committee in the Assembly, the measures never appeared on the floor.

Home Rule For Cities.
Series of bills dealing with home rule for cities, clarifying the relations between city boards of education and the general city authorities, and reorganization of the state government, generally met with success. The home rule proposals were intended to broaden the powers of cities in dealing with their own problems, and were strongly recommended by the state conference of mayors.

The reorganization measures—to talling more than 100—received general approval after their introduction by the reorganization committees of both houses. All of the bills were designed to conform laws with the reorganization laws, where slight flaws had been found to exist after a year's trial.

PAIRINGS IN HIGH SCHOOL LEAGUE TOURNAMENT

Troy, N. Y., March 22 (AP).—Drawings for pairings in the first night's play for the New York state high school league basketball championships were made here today and resulted as follows, with the teams to take the floor in the order named:

Washington Irving High, Tarrytown, vs. Waverly High, Waverly.
Syracuse Central High, Syracuse, vs. Franklin Academy, Malone.
Foodick Masten Park High, Buffalo, vs. Albany High, Albany.
East High, Rochester, vs. South Side High, Southampton, L. I.

The four survivors of the eight teams taking the floor tonight will meet in the semi-finals tomorrow night and the two successful contestants then engage in the final for the state title Saturday night.

Tomorrow morning the players and coaches are to be taken on a sight-seeing trip that will include the State Capitol, with a call on Governor Smith.

K. H. S. SENIOR CLASS TO PRESENT PLAY

The Kingston High School Senior Class is preparing for its annual Senior play to be presented in the high school auditorium Friday evening, March 30, at 8:15 o'clock.

The play selected for this year's production is Ailan Langdon Martin's "Smilin' Through". The play is very impressive and has several effects which are, to say the least, pleasing to the eyes.

Miss Anne D. Byrne, who so successfully directed the presentation of the A. A. play, "Strongheart", is the coach and says the play is coming on nicely. An all-star cast cut from over 100 Seniors who tried out will take the parts.

THE LITTLE THINGS
By DOUGLAS MALLOCH

"If I can make two words to rhyme And give a thought a merry chime If you can make the grass to grow Where grass the stranger would not know, We need not sigh for great deeds, too Who have the little things to do."

The man who selders pots and pans Has work as good as any man's; He works as well as anyone Who works at work that must be done 'Tis better just to sew a seam Than dream of things, and only dream.

The world is full of buildings tall That stand upon some sturdy wall That humble hands have fashioned; as From little deeds the great deeds grow. Although great things the great world needs, They all must rest on little deeds.

So let us try to do our part, And do it with a singing heart. For surely we have right to sing Who do the unimportant things. Because the things that seem so small Are most important, after all.

(Copyright, 1927, Douglas Malloch.)

SOMETHING TO THINK ABOUT
By F. A. WALKER

HOW ARE YOUR BRAKES?
EVERYWHERE, with the beginning of the year, the automobile dealers were showing the models for 1928. Glistening in fresh paint and satiny varnish the products of engineering genius were displayed for your admiration and purchase or envy.

The wise buyer, however, looks beyond the satiny surface. He goes in to the inside of the car and considers what makes it go and also what makes it stop.

One of the things to which he gives especial attention, if he be an experienced motorist, is the brakes. It is frequently much more important to be able to stop than to go faster. Cutting down speed is often more desirable than increasing it. A man buying an automobile ought to be sure that the brakes are as efficient as the engine and as responsive as the accelerator.

Brakes are mighty important things in life. A man that rushes through the world at top speed, never slowing down until he hits something, usually ends up with a badly broken body, a disabled mind or a crushed spirit.

Have you a good set of brakes and do you use them? Do you have a brake for your temper to keep it from dashing you into some unkind action or regrettable word?

Have you a brake for your appetites and your passions? They need a controlling hand with a firm grip. Have you a brake for your envy, your selfishness, your disregard of your neighbor's rights and the good of your fellows?

The trouble with most of us is that we think altogether of getting ahead. We are speed maniacs headed for the goal we deem most desirable, and brakes are the last thing that we want to think of.

It's a good idea once in a while to slow down, look back over the road we have traveled and make sure that in our rush and hurry we have not done some injury we would wish to repair, some injustice we want to rectify.

It's a good idea once in a while to put on the brakes and slacken our speed a little. Today is a good time to do it.

SAWS
By Viola Brothers Store

FOR THE GOOSE—
I AIN'T a kindness to bring a woman strawberries that's got strawberry rash.

Don't speak about nobody that done you dirt. Because if you say mean things people'll think you're small. And if you say nice ones they'll know you're lyin'.

Your lookin' glass is more your friend when the things it tellsin' you don't seem friendly.

FOR THE GANDER—
Everybody thinks that one of the reasons there's so many people in the world without brains is because they got more than their fair share.

There might be a man livin' that didn't think he was smart enough to handle his own affairs; but I bet there ain't one that don't think he's qualified to advise somebody else.

Ever bein' cheated occasionally ain't no harder on a man's disposition than never trustin' nobody.

By DOUGLAS MALLOCH

"If I can make two words to rhyme And give a thought a merry chime If you can make the grass to grow Where grass the stranger would not know, We need not sigh for great deeds, too Who have the little things to do."

The man who selders pots and pans Has work as good as any man's; He works as well as anyone Who works at work that must be done 'Tis better just to sew a seam Than dream of things, and only dream.

The world is full of buildings tall That stand upon some sturdy wall That humble hands have fashioned; as From little deeds the great deeds grow. Although great things the great world needs, They all must rest on little deeds.

So let us try to do our part, And do it with a singing heart. For surely we have right to sing Who do the unimportant things. Because the things that seem so small Are most important, after all.

(Copyright, 1927, Douglas Malloch.)

SOMETHING TO THINK ABOUT
By F. A. WALKER

HOW ARE YOUR BRAKES?
EVERYWHERE, with the beginning of the year, the automobile dealers were showing the models for 1928. Glistening in fresh paint and satiny varnish the products of engineering genius were displayed for your admiration and purchase or envy.

The wise buyer, however, looks beyond the satiny surface. He goes in to the inside of the car and considers what makes it go and also what makes it stop.

One of the things to which he gives especial attention, if he be an experienced motorist, is the brakes. It is frequently much more important to be able to stop than to go faster. Cutting down speed is often more desirable than increasing it. A man buying an automobile ought to be sure that the brakes are as efficient as the engine and as responsive as the accelerator.

Brakes are mighty important things in life. A man that rushes through the world at top speed, never slowing down until he hits something, usually ends up with a badly broken body, a disabled mind or a crushed spirit.

Have you a good set of brakes and do you use them? Do you have a brake for your temper to keep it from dashing you into some unkind action or regrettable word?

Have you a brake for your appetites and your passions? They need a controlling hand with a firm grip. Have you a brake for your envy, your selfishness, your disregard of your neighbor's rights and the good of your fellows?

The trouble with most of us is that we think altogether of getting ahead. We are speed maniacs headed for the goal we deem most desirable, and brakes are the last thing that we want to think of.

It's a good idea once in a while to slow down, look back over the road we have traveled and make sure that in our rush and hurry we have not done some injury we would wish to repair, some injustice we want to rectify.

It's a good idea once in a while to put on the brakes and slacken our speed a little. Today is a good time to do it.

(By McClure Newspaper Syndicate.)

SAWS
By Viola Brothers Store

FOR THE GOOSE—
I AIN'T a kindness to bring a woman strawberries that's got strawberry rash.

Don't speak about nobody that done you dirt. Because if you say mean things people'll think you're small. And if you say nice ones they'll know you're lyin'.

Your lookin' glass is more your friend when the things it tellsin' you don't seem friendly.

FOR THE GANDER—
Everybody thinks that one of the reasons there's so many people in the world without brains is because they got more than their fair share.

There might be a man livin' that didn't think he was smart enough to handle his own affairs; but I bet there ain't one that don't think he's qualified to advise somebody else.

Ever bein' cheated occasionally ain't no harder on a man's disposition than never trustin' nobody.

Strong Quake Shakes Mexico

Mexico City, March 22 (AP).—A strong earthquake, perceptible here for seven minutes, struck Mexico last night.

Five persons were injured in the Capital by houses which crumbled from houses, while numerous casualties were reported in dispatches from Oaxaca.

Startled by the tremors, audiences in theatres became panicky and rushed to the streets, women fainting.

Although the seismographs at the Tacubaya observatory were first reported thrown out of order by the shocks, the observatory today issued a bulletin stating that the earthquake lasted 27 minutes 42 seconds, during which the tremor was perceptible for seven minutes.

The bulletin placed the center of the quake about 200 miles southwest of Mexico City.

Dispatches from Oaxaca said that several houses were destroyed with numerous casualties.

R. OF C. COMMUNION BREAKFAST SUNDAY.

Members of Kingston Council, No. 275, Knights of Columbus, will receive their annual Holy Communion Sunday morning at the 8 o'clock Mass in the Immaculate Conception Church, Delaware Avenue. A communion breakfast will be served in the Governor Clinton Hotel at 9 o'clock. All who intend to be present at the events are requested to inform Lecturer William J. Dwyer as soon as possible in order that adequate reservations might be made.

The Knights will occupy the entire church. The Mass will be offered by the Rev. Ignatius Bialdys, pastor of the church. The Knights of Columbus choir will sing during the service.

The men will go to the Governor Clinton Hotel immediately after the Mass where the communion breakfast will be served at 9 o'clock. Members who have cars will donate them to transport the men from the church to the hotel. At the breakfast there will be prominent speakers from New York who will have interesting messages for all. The Rev. Francis X. FitzPatrick, chaplain, will also speak at the breakfast.

Y. W. C. A. to Attend Funeral.

The board of directors of the Y. W. C. A. learned with much regret of the death of a charter member, Mrs. William C. Kingman. The Y. W. C. A. will be closed on Friday from 2:30 to 3:30 o'clock during the funeral. Members of the association will assemble at the building at 1:45 so that they may attend the funeral in a body.

Beavers' Preferences

Aspen or poplar and cottonwood trees are the beavers' preferred food and building material. They prefer to work on small or medium-sized trees, but have been known to fell a balsam tree 46 inches in diameter.

Balks on Marrying on Hunting License

Conway, Ark.—An Arkansas law balks at an excited man venturing upon the troubled matrimonial waters for the first time.

W. L. Angel, twenty-four, of Green River, near here, rushed into the circuit court and asked for "a license."

Deputy Clerk E. A. Newell, who has been issuing hunting licenses for the hundreds since duck hunting season opened recently, has two-asserted many years and knows little about the romantic end of life. So he balked.

Not noticing the mistake, Angel returned to his hotel, who was waiting at the pastor's home. The minister, however, veteran at performing nuptial knots, was not to be fooled.

Angel returned to the courthouse, where the clerk canceled the hunting license and substituted a marriage certificate.

110 Billion Interest on British War Debt

London.—Before the British war debt is paid the present generation and its descendants will have paid \$110,000,000,000 in interest alone, according to Philip Snowden, former labor chancellor of the exchequer.

"It would take a man more than 700 years to count it at the rate of a \$5 bill per second," he said.

Ruins Mark Spread of Pueblo Culture

Las Cruces, N. M.—Remains of an ancient pueblo ruin have been discovered here marking what is believed to be the farthest point south that true New Mexico pueblo culture extended.

The ruin is located on the old trail known as the Jornada del Muerto, "Journey of Death," so called by the early Spanish conquistadores because of the dangers both from thirst and from Indians encountered in crossing it.

Archaeologists believe that at some remote period communal houses rose to a height of two or more stories on the site marked today only by low mounds and adobe walls level with the surface of the ground.

News of the Day In Wall Street

New York, March 22 (AP).—Heavy melting steel scrap is 25 cents a ton lower in the Pittsburgh district. Quotations ranging from \$14.25 to \$14.75. Occasional sales of Bessemer pig iron are reported at \$17.25 minimum, a reduction of 25 cents. Small lots still bring \$17.50 valley.

Net income of Remington Typewriter Company for 1927 was \$2,750,263 against \$2,597,345 in 1926. This is equal after preferred dividends to \$21.57 a share on the common against \$19.75 a share the year before.

Net earnings of Cities Service Company for the year ended February 29 reached \$31,840,374, an increase of \$5,323,252 over the preceding 12 months. Earnings for the common stock were equivalent to \$5.35 a share against \$4.44 the year before.

Equipment inquiries include 15 locomotive tenders for the Atchafalaya and Santa Fe; 500 steel underframes for box cars for the Seaboard Air Line and 300 freight cars for the Atlantic Coast Line Railroad. American Tank Car has an order from the Propane Corporation, Erie, Pa., for three 11,000 gallon tank cars.

A Successful Card Party.

A delightful card party was held Tuesday afternoon at the home of Mrs. Swanson, president of the Parent-Teacher Association of School No. 6. Nine tables of bridge and pinocle formed the party. The proceeds of the party will go toward carrying on P. T. A. work, which was thoroughly discussed at the party. Those who attended were pleased to hear that many more such card parties will be held in the future for the benefit of the association.

Bed Bugs
kill them with FLIT

We ordered a large shipment of Fresh Haddock and Fresh Bullheads which we can sell at a special price for this week.

PIERCE ARROW
Too many of the Pierce-Arrow sort of people think of Pierce-Arrow ownership in minimum terms of \$5000. The truth is, the new Pierce-Arrow costs little if any more than a majority of these people are entirely able and willing to pay.
FROM \$2900 AT BUFFALO
You may purchase a Pierce-Arrow out of income, if you prefer. A simplified financing plan makes this a most practical procedure. Your present car accepted as cash up to the full amount of its appraisal valuation.
